

Table S2: Types of HLA assignments used and their resolution

| Assignment | Resolution | Example |
|------------------------|-------------------|-----------------|
| Serological / Antigen | low | DR14 |
| XX-code | low | DRB1*14:XX |
| Multiple allele code | non-high | DRB1*14:MAC |
| ARD group (two fields) | high | DRB1*14:01g |
| Allele | high | DRB1*14:01 |
| WMDA extension | n/a | UUUU (untested) |
