Table S4. Correlation between fecal water content and intestinal lesions.

	Number of lesions		Lesion size		Lesion load	
	ρ	p-value	ρ	p-value	ρ	p-value
Colon, flat ACF	0.182	0.089	0.018	0.870	0.131	0.225
Colon, tumor	0.171	0.112	0.151	0.162	0.172	0.110
Small intestine, tumor	0.099	0.357	0.054	0.618	0.075	0.490

Results are given as ρ, Spearman's rank correlation coefficient.
