**Q13** The first newborn infant will have a MODERATE learning and physical disability if they are admitted to NICU and provided with life-saving treatment. This means that they will have a problem with seeing, hearing or talking even with glasses or a hearing aid. They will learn schoolwork slowly and need special help. They will also need to use a walking aid to walk, and special equipment to eat, bathe, dress or use the toilet. They will also sometimes get angry, worried or sad without any cause. If there were a bed available, would you admit this baby to the NICU?

**Q48** Imagine you are manning the sole coastguard boat on duty. Two boats have been overturned some distance from each other. There are 5 people on one life raft 50 miles due north, and 1 person on another life raft 50 miles due south. A storm is brewing and it is highly likely you will only be able to reach one life raft before the storm overturns them and the people drown. Do you:
