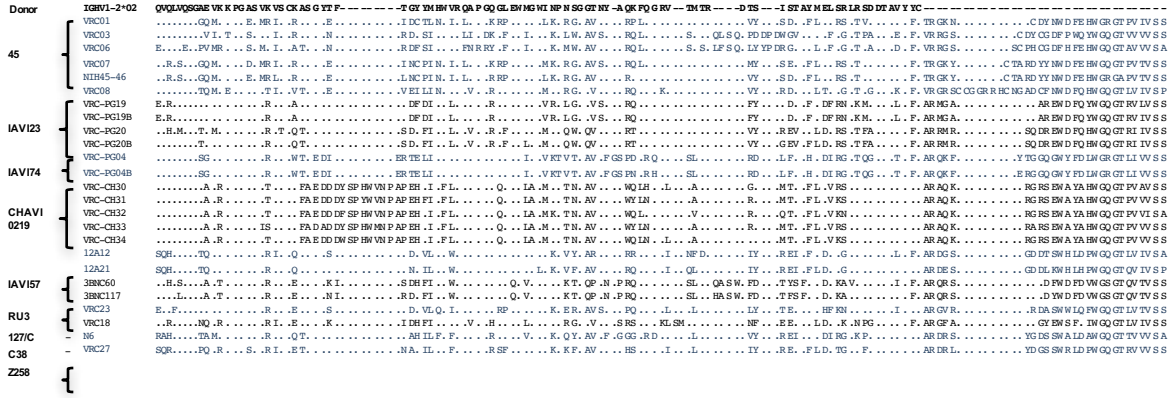
Figure S6 Related to Figure 5

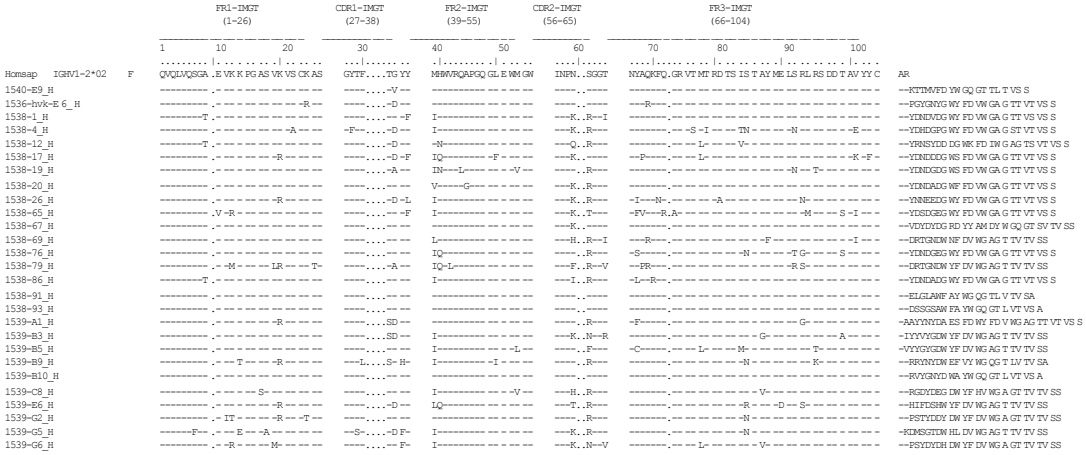
A. 25 HCs from 9 lineages of VRC01-class bNabs

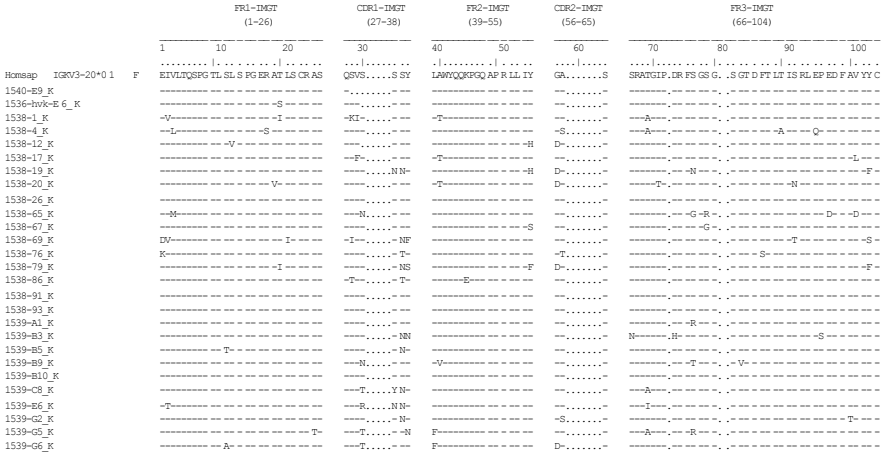


B. Consensus and representative sequences for mutation profile

VRC01-class SHMs: mutations that are present in at least two of the 9 VRC01-class bNAb lineages at corresponding VH1-2 positions.

C. The heavy chains of the 27 synthesized knock-in mouse IgGs





D. The light chains of the 27 synthesized knock-in mouse IgGs
