

Figure S2. Decreased prepulse inhibition in *Ednra*^{Y129F/+} and *Ednra*^{Y129F/Y129F} mice. Both male (A) and female (B) *Ednra*^{Y129F/+} and *Ednra*^{Y129F/Y129F} mice show decreased prepulse inhibition compared to *Ednra*^{+/+} mice.
