Figure S1:

Receiver operator characteristic (ROC) curves for cytometer WBC counts and dipstick urinalysis: The ROC curves for each urinalysis test are presented. The AUC for dipstick analysis LE and Nitrites were 0.92 (95%CI 0.90-0.94) and 0.83 (95%CI 0.80-0.87), respectively, as compared with 0.99 (95%CI 0.98-0.99) for cytometer leukocytes counts. A statistically significant difference was found (*P* < 0.001).
