### Supporting Information S2 Text: Supplementary references supporting information in Datasets

This Supporting Information contains supplementary reference lists of the references that support the Datasets used in the computation.

#### INDEX

**Part I – References of the Dataset of HIV-2 prevalence rates (S1 Dataset)**

**Part II – References of the Dataset of male circumcision information per ethnic group (S2 Dataset)**

**Part III – References of the Datasets of tables of ethnic partition of population of cities and regions (S4 Dataset and S5 Dataset)**

**Part IV – Personal Communications (S2 Dataset)**

## Part I – References of the Dataset of HIV-2 prevalence rates

## **Part IV – Personal Communications**

Marc Augé (École des Hautes Études en Sciences Sociales, France), email communication, January 2009: The Lagunaire peoples of Côte d'Ivoire (Ebrié, Mbato, Abouré, Aladian, Avikam, Adioukrou) were not traditionally circumcised.

Daniel Elwood Dunn (Alfred Walter Negley Professor of Political Science, University of the South, Sewanee, USA), email communication, March 2009: at about 1950, most boys of mixed immigrant[Americo-Liberian]-indigenous heritage were probably being circumcised, based on his own and his peers experience.

Francisco Henriques da Silva (Historian, participant in the Guinea-Bissau war in 1968–1970, Ambassador of Portugal in Guinea-Bissau in 1997–1999), January 2015: Cape Verdeans who were in Guinea-Bissau during the independence war did not practice male circumcision.
