9 months	47 (19)	1.4	51 (18)	2.2	1.09	0.37-3.22	47	5.0 (1.5)	51	5.1 (1.2)	–0.08	–0.63 to 0.46

[a]There is an SD on the proportion of patients with poor control status only for imputed data.

[b]Changes reported between intervention and control groups are for models adjusted for intervention group and time only

[c]OR, odds ratio.

[d]MC, mean change.
