

Supplemental Figure – Furuta et al.

Supplemental Figure. 1A

Supplemental Figure. 1B

Figure S1. Profiling of angiogenic factors and Cytokine in MSC-exosomes, CM-Exo, and CM by Antibody Array. (A) The antibody array for Angiogenic factors (55 proteins) in MSC-exosomes, CM-Exo, and CM. (B) The antibody array for cytokines (102 proteins) in MSC-exosomes, CM-Exo, and CM. CM, conditioned medium; CM-Exo, exosome-depleted conditioned medium.
