

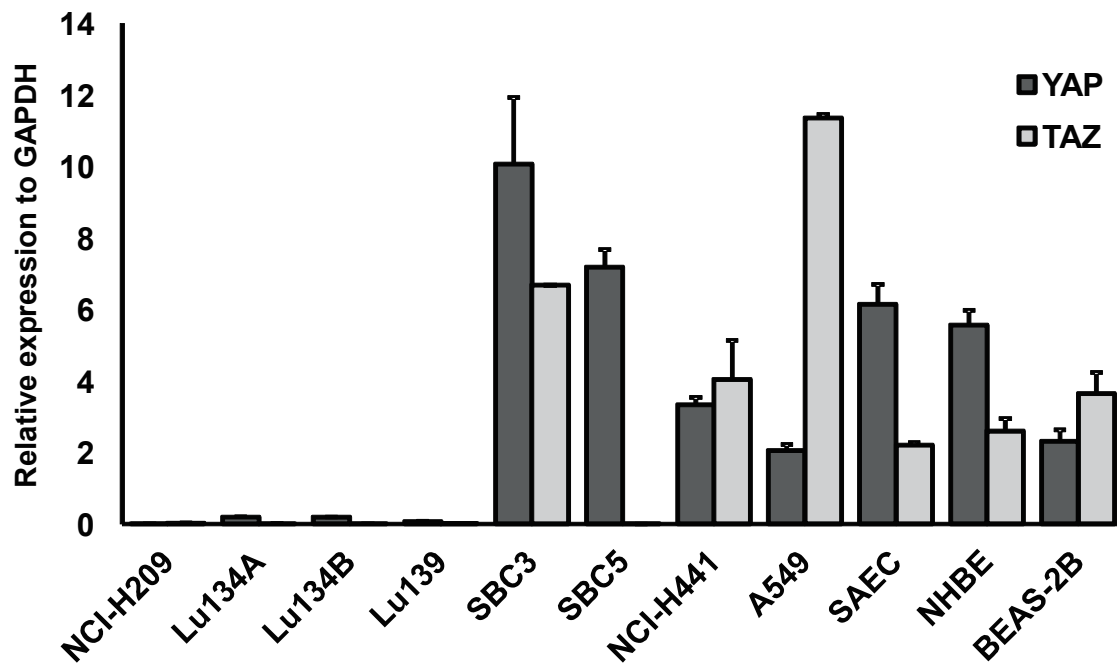

Figure S2

Supplementary Figure S2. YAP and TAZ expression in SCLC cell lines. Quantitative RT-PCR for YAP and TAZ in SCLC cell lines (NCI-H209, Lu134A, Lu134B, Lu139, SBC3 and SBC5), NSCLC cell lines (A549 and NCI-H441) and lung epithelial cells (SAEC, NHBE and BEAS2B). The expression levels were normalized to that of GAPDH. Error bars represent standard errors.
