

A. Select the example sequence and the operation button

Please choose one of following functions below: (Note: Only first sequence will be calculated on first two method)

TVCurve

RNA Mutation

RNA Multiple

RNA Pairwise

Step 1: Select functional module TVCurve

TVCurve Tab

Step 1

You can open file or write content below:

1. [Click here](#) to load the RNA sequence and structure of *Hepatitis C virus* sample
2. [Click here](#) to load the sequence of *Leptomonas collosoma* sample
3. [Click here](#) to load nine RNA virus sequences

Step 2

Step 2: Select the third example for visualization

Open RNA FASTA file...
