

Supplemental Figure S7. Lack of relationship between PD-L1 expression (5% cutoff) and nivolumab clearance.

The box plots represent median (bold line), 25th, and 75th percentiles of the distribution. The whiskers represent 5th and 95th percentiles of the distribution. Patients who did not have available PD-L1 data with verified assay were excluded from the graphical assessment. PD-L1, programmed death ligand-1.
