ICMJE Form for Disclosure of Potential Conflicts of Interest

Section 1. Identifying Information

1. Given Name (First Name)	2. Surname (Last Name)	3. Date
Umut	Ozbek	12-December-2016

4. Are you the corresponding author? ☐ Yes ☑ No

Corresponding Author's Name
James Ferrara and John Levine

5. Manuscript Title
An Early Biomarker Algorithm Predicts Lethal Graft- versus-Host Disease and Survival

6. Manuscript Identifying Number (if you know it)
Revised manuscript 89798-INS-CMED-RV-3

Section 2. The Work Under Consideration for Publication

Did you or your institution **at any time** receive payment or services from a third party (government, commercial, private foundation, etc.) for any aspect of the submitted work (including but not limited to grants, data monitoring board, study design, manuscript preparation, statistical analysis, etc.)?

Are there any relevant conflicts of interest? ☐ Yes ☑ No

Section 3. Relevant financial activities outside the submitted work.

Place a check in the appropriate boxes in the table to indicate whether you have financial relationships (regardless of amount of compensation) with entities as described in the instructions. Use one line for each entity; add as many lines as you need by clicking the "Add +" box. You should report relationships that were **present during the 36 months prior to publication.**

Are there any relevant conflicts of interest? ☐ Yes ☑ No

Section 4. Intellectual Property – Patents & Copyrights

Do you have any patents, whether planned, pending or issued, broadly relevant to the work? ☐ Yes ☑ No

ICMJE Form for Disclosure of Potential Conflicts of Interest

Section 5.   Relationships not covered above

Are there other relationships or activities that readers could perceive to have influenced, or that give the appearance of potentially influencing, what you wrote in the submitted work?

☐ Yes, the following relationships/conditions/circumstances are present (explain below):

☑ No other relationships/conditions/circumstances that present a potential conflict of interest

At the time of manuscript acceptance, journals will ask authors to confirm and, if necessary, update their disclosure statements. On occasion, journals may ask authors to disclose further information about reported relationships.

Section 6.   Disclosure Statement

Based on the above disclosures, this form will automatically generate a disclosure statement, which will appear in the box below.

Dr. Ozbek has nothing to disclose.

Evaluation and Feedback

Please visit http://www.icmje.org/cgi-bin/feedback to provide feedback on your experience with completing this form.

ICMJE Form for Disclosure of Potential Conflicts of Interest

Section 5. Relationships not covered above

Are there other relationships or activities that readers could perceive to have influenced, or that give the appearance of potentially influencing, what you wrote in the submitted work?

☐ Yes, the following relationships/conditions/circumstances are present (explain below):

☑ No other relationships/conditions/circumstances that present a potential conflict of interest

At the time of manuscript acceptance, journals will ask authors to confirm and, if necessary, update their disclosure statements. On occasion, journals may ask authors to disclose further information about reported relationships.

Section 6. Disclosure Statement

Based on the above disclosures, this form will automatically generate a disclosure statement, which will appear in the box below.

Dr. Hexner has nothing to disclose.

ICMJE Form for Disclosure of Potential Conflicts of Interest

Section 1. Identifying Information

1. Given Name (First Name)
Udomsak

2. Surname (Last Name)
Bunworasate

3. Date
12-December-2016

4. Are you the corresponding author? ☐ Yes ☑ No   Corresponding Author's Name
James Ferrara and John Levine

5. Manuscript Title
An Early Biomarker Algorithm Predicts Lethal Graft- versus-Host Disease and Survival

6. Manuscript Identifying Number (if you know it)
Revised manuscript 89798-INS-CMED-RV-3

Section 2. The Work Under Consideration for Publication

Did you or your institution **at any time** receive payment or services from a third party (government, commercial, private foundation, etc.) for any aspect of the submitted work (including but not limited to grants, data monitoring board, study design, manuscript preparation, statistical analysis, etc.)?

Are there any relevant conflicts of interest? ☐ Yes ☑ No

Section 3. Relevant financial activities outside the submitted work.

Place a check in the appropriate boxes in the table to indicate whether you have financial relationships (regardless of amount of compensation) with entities as described in the instructions. Use one line for each entity; add as many lines as you need by clicking the "Add +" box. You should report relationships that were **present during the 36 months prior to publication.**

Are there any relevant conflicts of interest? ☐ Yes ☑ No

Section 4. Intellectual Property -- Patents & Copyrights

Do you have any patents, whether planned, pending or issued, broadly relevant to the work? ☐ Yes ☑ No

ICMJE Form for Disclosure of Potential Conflicts of Interest

Section 5.   Relationships not covered above

Are there other relationships or activities that readers could perceive to have influenced, or that give the appearance of potentially influencing, what you wrote in the submitted work?

☐ Yes, the following relationships/conditions/circumstances are present (explain below):

☑ No other relationships/conditions/circumstances that present a potential conflict of interest

At the time of manuscript acceptance, journals will ask authors to confirm and, if necessary, update their disclosure statements. On occasion, journals may ask authors to disclose further information about reported relationships.

Section 6.   Disclosure Statement

Based on the above disclosures, this form will automatically generate a disclosure statement, which will appear in the box below.

Dr. Bunworasate has nothing to disclose.

Locatelli

3. Date
12-December-2016

4. Are you the corresponding author? ☐ Yes ☑ No

Corresponding Author's Name
James Ferrara and John Levine

5. Manuscript Title
An Early Biomarker Algorithm Predicts Lethal Graft-versus-Host Disease and Survival

6. Manuscript Identifying Number (if you know it)
Revised manuscript 89798-INS-CMED-RV-3

Section 2. The Work Under Consideration for Publication

Did you or your institution **at any time** receive payment or services from a third party (government, commercial, private foundation, etc.) for any aspect of the submitted work (including but not limited to grants, data monitoring board, study design, manuscript preparation, statistical analysis, etc.)?
Are there any relevant conflicts of interest? ☐ Yes ☑ No

Section 3. Relevant financial activities outside the submitted work.

Place a check in the appropriate boxes in the table to indicate whether you have financial relationships (regardless of amount of compensation) with entities as described in the instructions. Use one line for each entity; add as many lines as you need by clicking the "Add +" box. You should report relationships that were **present during the 36 months prior to publication.**
Are there any relevant conflicts of interest? ☐ Yes ☑ No

Section 4. Intellectual Property -- Patents & Copyrights

Do you have any patents, whether planned, pending or issued, broadly relevant to the work? ☐ Yes ☑ No

ICMJE Form for Disclosure of Potential Conflicts of Interest

Section 5.   Relationships not covered above

Are there other relationships or activities that readers could perceive to have influenced, or that give the appearance of potentially influencing, what you wrote in the submitted work?

☐ Yes, the following relationships/conditions/circumstances are present (explain below):

☑ No other relationships/conditions/circumstances that present a potential conflict of interest

At the time of manuscript acceptance, journals will ask authors to confirm and, if necessary, update their disclosure statements. On occasion, journals may ask authors to disclose further information about reported relationships.

Section 6.   Disclosure Statement

Based on the above disclosures, this form will automatically generate a disclosure statement, which will appear in the box below.

Dr. Locatelli has nothing to disclose.

REQUIRED FILES

_X_ PDF of the revised manuscript that includes a preface of point-by-point responses to reviewer comments.

_X_ Text document (formatted as Word or RTF) of the revised manuscript (do not include point-by-point responses).

_NA_ PDF of the uncropped/unedited versions of all gel and blot images that appear in the manuscript and Supplement. Each image should be annotated as "Full unedited gel for Figure X"; highlight which lanes of the unedited gel correspond to those shown in the cropped images within the figures.

X__ Conflict of interest documentation for all authors and appropriate flow diagrams and checklists as required for the Clinical Medicine category (https://urldefense.proofpoint.com/v2/url?u=http-3A__insight.jci.org_kiosk_authors-23CMED-5FRequirements&d=DQIGaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=9cORiYPyAhrug-z0zKHX46j2AOsUq16oEEF7orfOGeE&m=tFdZB5IDzJyMFBC0znQ3lM50iNYIRg_jJQnXwNjfFBk&s=8ZOYsHdIMLNS94i0x_LEKFWR18PTzqUdLPjgKcTUFTA&e=).

_X_ Provide high-resolution electronic files for all figures. See figure instructions for more information: https://urldefense.proofpoint.com/v2/url?u=http-3A__insight.jci.org_kiosks_publish_figures&d=DQIGaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=9cORiYPyAhrug-z0zKHX46j2AOsUq16oEEF7orfOGeE&m=tFdZB5IDzJyMFBC0znQ3lM50iNYIRg_jJQnXwNjfFBk&s=JNKyAX4Qy_eH-7PfRJg18Zd_WdPlOuXwBo0kdYfWXoI&e= .

DATA REPORTING GUIDELINES

_X_ The exact number of samples (n) for each figure panel representing multiple experiments is included in the legend.

_NA_ For representative experiments, the number of times the experiment was conducted is stated.

_X_ The statistical test utilized is described in each figure legend.

_X_ Error bars are defined, either in Statistics or in the legends themselves; e.g., "Data represent mean ± SEM." Variance around the mean and statistical analysis should not be presented if fewer than 3 independent samples are included.

_X_ For statistical analysis, the analysis appropriately corrects for multiple comparisons when comparing more than two groups and corrects for repeated measures when comparing multiple

measurements within subjects. A statement describing inclusion/exclusion criteria is included if samples were excluded from the analysis.

_X_ Graphs of quantitative data must be presented in a manner that clearly shows the distribution of data and variation. Graphs should be presented as dot plots, with the average and appropriate error bars indicated; or as box and whisker plots, with values defined in the legend (the bounds of the boxes, the lines within the boxes, the whiskers, and any outlying values). Presenting data as columns with error bars (dynamite plunger plots) is not permitted.

_NA_ If lanes in a gel or blot image of any kind are spliced together into a composite image, they must be separated by a thin vertical dividing line, and a note must be included in the legend that the lanes were run on the same gel but were noncontiguous. A black dividing should be used for images with a grey background; a white dividing line should be used for images with a black background.

_NA_ Histological panels and insets: scale bars included in the images are defined in the figure legends, or original magnification is provided in the figure legends.

_NA_ For animal models, the precise genotype, strain, number of backcrosses, sex, and age of animals studied are reported.

_X_ A description of antibodies utilized is included in Methods, including the source and catalog/clone number for commercial antibodies or a description/reference to a description of the generation of custom antibodies.

_NA_ The source of cell lines utilized is indicated.

_NA_ Large datasets for gene expression microarrays, SNP arrays, and high-throughput sequencing studies are deposited in a public repository. The accession number is provided in the text of the main manuscript. Deposition of other types of large datasets in a public repository is strongly encouraged.

MANUSCRIPT FORMATTING (required components)

_X_ Title: The title should be clear, concise, descriptive, and limited to 10 words, including conjunctions. No subtitles, colons, periods, or nonstandard abbreviations.

_X_ Authors: full names of all authors are provided in the appropriate order.

_X_ Affiliations: numbered consecutively according to the order in which authors are listed; include complete locations (city, state, country).

_X_ Conflict of interest statement: declare all author conflicts per the conflict-of-interest policy (https://urldefense.proofpoint.com/v2/url?u=http-3A__insight.jci.org_kiosk_authors-23Editorial-5FPolicies&d=DQIGaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=9cORiYPyAhrug-

z0zKHX46j2AOsUq16oEEF7orfOGeE&m=tFdZB5IDzJyMFBC0znQ3IM50iNYIRg_jJQnXwNjfFB
k&s=lyxeIoJbqeQA1AykW0GjlX5juTTOx3jZtNId8ZdpPqk&e=). If no conflict exists, state the
following: "The authors have declared that no conflict of interest exists."

_X_ Full mailing address along with telephone and e-mail address of each corresponding
author is provided.

 MANUSCRIPT TEXT AND REFERENCES

 _X_ Text is organized in the following consecutive sections: Abstract, Introduction, Results,
Discussion, Methods, Acknowledgments, References, Figure legends, Tables. The
recommended text length is 9000 words; text cannot exceed 12000 words, including figure
legends, tables, and references.

 _X_ Abstract does not exceed 250 words and does not contain primary data or reference
citations.

 _X_ All nonstandard abbreviations (i.e., abbreviations that do not appear in the Standard
abbreviations list; https://urldefense.proofpoint.com/v2/url?u=http-
3A__insight.jci.org_kiosk_publish_abbreviations&d=DQIGaQ&c=shNJtf5dKgNcPZ6Yh64b-
A&r=9cORiYPyAhrug-
z0zKHX46j2AOsUq16oEEF7orfOGeE&m=tFdZB5IDzJyMFBC0znQ3IM50iNYIRg_jJQnXwNjfFB
k&s=vA7CBYJC-k-hCytQllFG2513BnEhKrbjMUVPvjpWOiM&e=) are defined at first use in the
abstract and again at first use in the text.

 _X_ All gene symbols are consistent with Entrez Gene nomenclature, are
italicized, and are capitalized according to biological species. See
Gene Nomenclature and Style for details:
https://urldefense.proofpoint.com/v2/url?u=http-3A__insight.jci.org_ki
osk_publish_genestyle&d=DQIGaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=9cORiYPyAhru

wNjfFBk&s=gHiJuB_IoMH0kKq9AJrjr84IQz1lPuRih6UKa04gX5M&e=

 _X_ A section at the end of Methods titled "Statistics" summarizes methods of statistical
analysis, including the P value that was considered significant.

 _X_ A brief paragraph following the statistics section titled "Study approval" provides, as
appropriate, statements indicating approval of animal and/or human studies, with the official
name and location of the relevant review board(s) specified; for human studies, a statement
indicating receipt of written informed consent from participants or their guardians is included.
For manuscripts that include patient photographs, a separate statement must be included that
written informed consent was provided for pictures appearing in the manuscript.

_X_ A paragraph following Methods titled "Author contributions" specifies how each author (identified by initials) contributed to the manuscript. Examples include designing research studies, conducting experiments, acquiring data, analyzing data, providing reagents, and writing the manuscript. Multiple contributions may be listed for a single individual, and more than one individual may be associated with a single contribution.

_NA_ Unpublished data, manuscripts in preparation or under review, and personal communications are cited in the text as follows: "([author's name], unpublished observations)." Authors citing the unpublished observations of someone outside of their research team must submit written permission to cite the unpublished results.

_X_ References are numbered consecutively according to the order in which they are first cited in the text and are cited in parentheses, e.g., "(1, 2)" or "(4–10)."

_NA_ Manuscripts accepted for publication or published online are treated as numbered references.

_X_ Figures and tables are cited in numerical order; the words "Figure" and "Table" are spelled out.

_X_ Complete manufacturer names are provided for each proprietary item used in experiments.

_X_ References are styled according to the Instructions for Authors (https://urldefense.proofpoint.com/v2/url?u=http-3A__insight.jci.org_kiosk_authors&d=DQIGaQ&c=shNJtf5dKgNcPZ6Yh64b-A&r=9cORiYPyAhrug-z0zKHX46j2AOsUq16oEEF7orfOGeE&m=tFdZB5IDzJyMFBC0znQ3lM50iNYIRg_jJQnXwNjfFBk&s=Fjp-VXHkVuDk08Ryg5SMg-NobMLQ4f8dmcVS0vhiyZQ&e=), with journal titles styled per PubMed.

_NA_ Terms such as in vivo, in vitro, etc., are not italicized.

FIGURES, LEGENDS, AND TABLES

_X_ Figure parts are labeled with capital letters: A, B, C, etc. Subparts within figures (e.g., Figure 1B cannot have parts I and II) are not permitted.

_X_ Figure legends do not exceed 400 words.

_X_ Usage of terms within the figure legends is consistent with that in the figures themselves; the use of abbreviations is consistent throughout the figures and legends.

_X_ Tables are included with the submitted Word document and presented in Microsoft Word's table format (i.e., not pasted as an image from another application).

_X_ Column headings in tables apply to all values throughout the column; a new row of column headings may not be used midway through a table.
