## The Prescribing Improvement Model Questionnaire for Pharmacists

We want to support safe prescribing, increase doctors' confidence, enhance learning and make pharmacists' feedback more effective - your views are important.

Please only complete this questionnaire if you provide a ward pharmacy service

Gender: Male □; Female □ Band: 6 □; 7 □; 8	3										
Please circle the number which best represents your agreement with the statem	ent. I	Rep	lies a	are a	non	ymo	<b>15</b> .				
Understanding prescribing errors	Smoogly	draign de					g Total				
I feel there is an open culture with respect to discussing prescribing errors	1	2	3	4	5	6	7				
2. I understand why doctors make prescribing errors	1	2	3	4	5	6	7				
I am aware of the conditions under which doctors are likely to make a prescribing error	1	2	3	4	5	6	7				
4. I believe FY1s are aware of all major prescribing errors they make	1	2	3	4	5	6	7				
5. I believe FY1s are aware of all minor prescribing errors they make	1	2	3	4	5	6	7				
Lithink it is important that FY1s know about prescribing errors other FY1s make	1	2	3	4	5	6	7				
Evaluation of the current feedback FY1s receive from pharmacists on their prescribing errors	Strongly	фифис						Strongly			
1. In this trust pharmacy support FY1s in learning from their prescribing errors	1	2	3	4	5	6	7				
Robust processes are in place in this trust for monitoring and feeding back information about prescribing errors	1	2	3	4	5	6	7				
$^{\rm 9.}$ When I identify a prescribing error I always make a doctor aware that an $^{\rm 9.}$ error has been made	1	2	3	4	5	6	7				
10 The feedback I currently give is useful in improving FY1s' prescribing	. 1	2	3	4	5	6	7	_			
I am able to give $\mbox{\it verbal}$ feedback $\mbox{\it often}$ enough for it to be useful to FY1s	1	2	3	4	5	6	7				
I am able to give written feedback (e.g. in medical notes) often enough for it to be useful to FY1s	1	2	3	4	5	6	7				
	1	2	3	4	5	6	7				
I am able to give <b>verbal</b> feedback to FY1s <b>soon</b> enough after detecting an error for it to be useful	_						7	_			
I am able to give verbal feedback to FY1s soon enough after detecting	1	2	3	4	. •	. "	. '				

I believe that the information FY1s receive on prescribing errors is accurate	1	2	3	4	5	6	7		
I believe that FY1s find the feedback they receive on prescribing errors to be trustworthy	1	2	3	4	5	6	7		
I believe that I provide feedback to FY1s on prescribing errors in a constructive manner	1	2	3	4	5	6	7		
I always identify the specific prescriber who makes a prescribing error	1	2	3	4	5	6	7		
Whenever I identify a prescribing error I give feedback to the specific prescriber who made the error	1	2	3	4	5	6	7		
I feel comfortable talking to FY1s about prescribing errors	1	2	3	4	5	6	7		
I feel comfortable informing FY1s they have made a prescribing error	1	2	3	4	5	6	7		
Giving feedback is a valuable use of pharmacists' time	1	2	3	4	5	6	7		
	Storgly						Characteristics		
FY1s are always interested in and engaged with the feedback they receive on their prescribing errors	1	2	3	4	5	6	7		
I believe that FY1s find the feedback they receive to be non-threatening	1	2	3	4	5	6	7		
oport for giving feedback on prescribing errors to FY1s	Strongly	dangree						Stonely	
I feel supported by my organisation to give feedback to FY1s on their prescribing errors	1	2	3	4	5	6	7		
	Smongly	dsagree							
I want to inform FY1s of all major prescribing errors they make	1	2	3	4	5	6	7	٠	
I want to inform FY1s of all prescribing errors they make, however minor	1	2	3	4	5	6	7		
I would like to give feedback to individual FY1s which includes examples of specific errors they have personally made	1	2	3	4	5	6	7		
Feedback to FY1s which includes generic guidance on prescribing practice would be useful	1	2	3	4	5	6	7		
Feedback to FY1s which includes statistical comparison with their peers would be useful	1	2	3	4	5	6	7
