

Figure S1. The effect of MM cell medium with or without the depletion of MVs on cell viability and apoptosis in HK-2 cells. **(A)** HK-2 cell viability was determined with CCK-8 assay. No statistical differences were found among the groups; **(B)** Representative FCM analysis of HK-2 cell apoptosis after 48 h of treatment (top) and bar graphs for apoptosis rate (bottom). No statistical differences were found among the groups. 1: control; 2: U266 medium; 3: U266 medium without MVs; 4: RPMI8226 medium; and 5: RPMI8226 medium without MVs.
