Supporting information for article:

X-ray crystal structure of human calcium-bound S100A1

**Zephan Melville, Ehson Aligholizadeh, Laura E. McKnight, Dylan J. Weber,
Edwin Pozharski and David J. Weber**

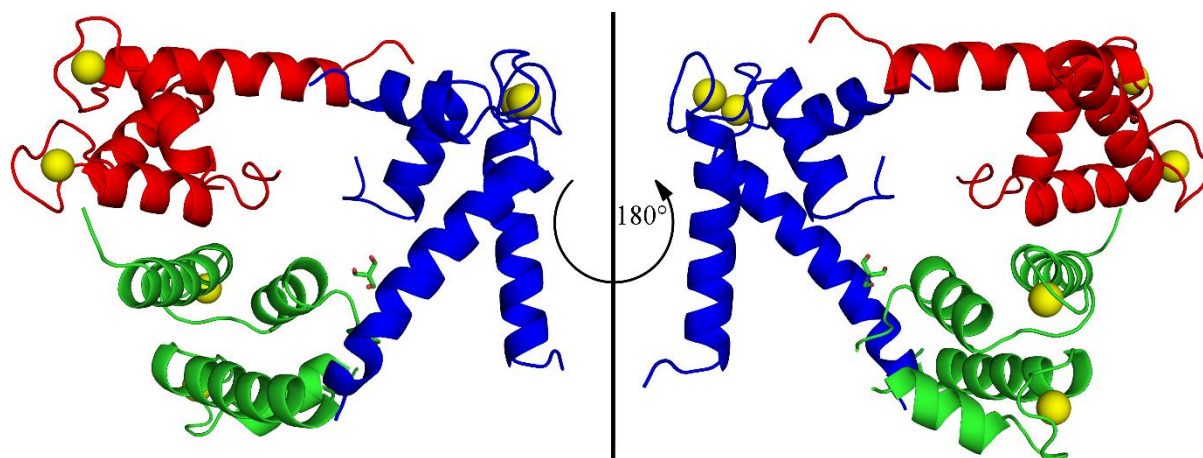

Figure S1 Ribbon diagram of the full asymmetric unit of the Ca²⁺-S100A1 crystal structure showing the three monomers in the asymmetric unit from the front (left) and rear (right).
