

SUPPLEMENTARY FIG. S2. *MYF5-D2KO* mice exhibit a normal metabolic phenotype. (A) Oxygen consumption (VO₂) of *Cre-MYF5* and *MYF5-D2KO* mice in every interval of 24 h period. (B) VO₂ average in light or dark cycles. (C) Same as (B) but respiratory exchange ratio (RER) is shown. (D) RER average in light or dark cycles. Values are the mean ± SEM. Sample size is shown in parentheses.
