

Electronic Supplemental Material (ESM)

Online Resource 3. Photosynthetic capacity (i.e. V_{cmax} and J_{max}) in relation to (a) mass-based leaf N concentration (N_m) and (b) mass-based leaf P concentration (P_m). Regression lines with r^2 and P values are shown.

Stomatal CO_2 responsiveness and photosynthetic capacity of tropical woody species in relation to taxonomy and functional traits

Thomas B. Hasper, Mirindi E. Dusenge, Friederike Breuer, Felicien U. Félicien K. Uwizeye, Göran Wallin, Johan Uddling
