Electronic Supplemental Material (ESM)

Online Resource 5. The relationship between the maximum rates of photosynthetic carboxylation (V_{cmax}) and electron transport (J_{max}) at 25 °C. Regression line with r^2 and P values is shown.

Stomatal CO₂ responsiveness and photosynthetic capacity of tropical woody species in relation to taxonomy and functional traits

Thomas B. Hasper, Mirindi E. Dusenge, Friederike Breuer, Felicien U. Félicien K. Uwizeye, Göran Wallin, Johan Uddling
