

Supplementary Table SV Associations of demographic variables with probability of transition from high non-tryer directly to pregnant.

Model	Demographic subgroup	TTx* (95% CI)
High non-tryer to pregnant	<25 years	1.00 (referent)
	25 to <30 years	1.16 (0.43,3.12)
	30 to <35 years	4.23 (1.36,13.18)
	≥35 years	1 (1,1)
	Currently married	1.00 (referent)
	Not currently married	3.62 (1.40,9.32)
	Non-Hispanic White	1.00 (referent)
	Hispanic	0.62 (0.24,1.63)
	Black	0.25 (0.05,1.13)
	Asian	2.04 × 10 ⁸ (0, estimate not stable)
	Other	0.30 (0.06,1.56)

* TTx = Fold change in time to transition relative to reference group.
