Supplementary Table SIX Comparison of parameter estimates between the AFT model and the CSSH model for the transition from moderate to low.

	AFT	CSSH	Direction of signs
≥25, <30 years		Significant	Consistent
≥30, <35 years	Significant	Significant	Consistent
≥35 years	Significant	Significant	Consistent
Currently not married	Significant	Significant	Consistent
Hispanic	Significant	Significant	Consistent
Black, Non-Hispanic			
Asian, Non-Hispanic	Significant	Significant	Consistent
Other
