

Median Log₂(Cy3/Cy5) of Genes in Cluster 8

GO-term enrichment of Genes in Cluster 8

GO number	GO term	P-value
0040011	Locomotion	4.94e-10
0051828	Entry into other organism	9.69e-10
0052126	Movement in host	9.69e-10
0044409	Entry into host	9.69e-10

Figure S4 related to Figure 4: Asexual-specific genes transcriptionally silent in 3D7^{pfs16} committed gametocytes. A) The median Log₂(Cy3/Cy5) ratios of 319 genes in Cluster 8 plotted over time from 3D7^{cam}, 3D7^{pfs16}, F12^{cam} and F12^{pfs16} with ± s.d. B) GO-term enrichment of genes in Cluster 3 and associated p-value score.
