

## S1 Table – renal biopsy results (total = 36 patients)

PATIENT	RENAL BIOPSY RESULT
1	Acute tubular necrosis, granulomas – Ziehl-Neelsen stain positive
2	HIV associated nephropathy, granulomas
3	Ascending pyelonephritis
4	Crescents, mesangiocapillary (membranoproliferative) glomerulonephritis
5	Acute tubular necrosis, granulomas
6	Lupus nephritis class V, necrotising lesions, crescents
7	Acute post infectious glomerulonephritis
8	Necrotising lesions, granulomas
9	Acute tubular necrosis, interstitial HIV associated nephropathy
10	Mesangiocapillary glomerulonephritis, acute tubular necrosis, granulomas
11	HIV associated nephropathy, acute interstitial nephritis
12	Mesangiocapillary glomerulonephritis, acute tubular necrosis
13	Mesangiocapillary glomerulonephritis, crescents
14	Mesangiocapillary glomerulonephritis, crescents, lupus nephritis class IV
15	Mesangiocapillary glomerulonephritis, crescents, ? lupus nephritis class IV, acute tubular necrosis
16	Mesangiocapillary glomerulonephritis, ? lupus nephritis class IV
17	Acute tubular necrosis
18	Necrotising lesions, IgA
19	Acute post streptococcal glomerulonephritis/post infectious glomerulonephritis
20	Acute mesangiocapillary glomerulonephritis, crescents, acute interstitial nephritis
21	Acute post streptococcal glomerulonephritis/post infectious glomerulonephritis
22	Eosinophils, granulomas
23	HIV associated nephropathy
24	Acute tubular necrosis, HIV associated nephropathy
25	Granulomas, acute tubular necrosis, interstitial fibrosis
26	Hypertension with crenation,? acute tubular necrosis, interstitial fibrosis
27	Acute tubular necrosis – exclude light chain deposition disease
28	Acute post streptococcal glomerulonephritis
29	HIV associated nephropathy, malignant hypertension, ascending pyelonephritis
30	Malignant hypertension, ascending pyelonephritis, interstitial fibrosis
31	Membranous glomerulonephritis, HIV associated nephropathy – foetal variant, hypertension
32	Malignant hypertension
33	Mesangiocapillary glomerulonephritis, crescents, lupus nephritis class IV
34	Acute post infectious glomerulonephritis, crescents
35	Mesangiocapillary glomerulonephritis
36	HIV associated nephropathy, granulomas, ascending pyelonephritis
