

Supplemental Information

SUPPLEMENTAL FIGURE 5

Statistical process control chart showing percentage of patients who received teaching on how to use an EAI before and after EBG introduction. Control limits set at 3-σ. Special variations detected after EBG introduction and EAI instructions merged with the EHR. LCL, lower control limit; UCL, upper control limit.

SUPPLEMENTAL FIGURE 6

G-chart showing 72-hour revisit rate of patients with anaphylaxis to our ED against number of patients between revisits.
