Version 3

Nocturnal enuresis and K⁺ transport in red blood cells from patients
with sickle cell anaemia

Sanjay Tewari, David C. Rees, Anke Hannemann, Oluwabukola T.
Gbotosho, Halima W.M. Al Balushi, and John S. Gibson

Disclosures: None.

Contributions: JSG and DCR devised the study and wrote the ms; ST obtained clinical data and carried out statistical analysis; AH carried out flux measurements, sickling assays, phosphatidylserine exposure and data analysis; OTG, HWMA and JSG carried out haemolysis experiments; OTG also carried out some phosphatidylserine measurements.
