

**Table S1.** Centiles of birth weight for gestational age at 20 to 22 weeks gestation according to different fetal growth references.

Country (Reference)	Sex	Gestational age	Birth weight		
			10 <sup>th</sup> centile (g)	50 <sup>th</sup> centile (g)	90 <sup>th</sup> centile (g)
Australia (Dobbins et al. 2012). <sup>6</sup>	Males	20 weeks	273	340	430
	Males	21 weeks	335	420	500
	Males	22 weeks	410	500	600
	Males	23 weeks	500	588	700
	Males	24 weeks	550	684	810
	Females	20 weeks	265	320	410
	Females	21 weeks	300	390	470
	Females	22 weeks	400	480	560
	Females	23 weeks	445	560	660
	Females	24 weeks	520	641	754
Canada (Kramer et al. 2000). <sup>5</sup>	Males	22 weeks	401	490	587
	Males	23 weeks	475	589	714
	Males	24 weeks	547	690	844
	Females	22 weeks	385	466	552
	Females	23 weeks	450	557	669
California (Williams et al. 1982). <sup>3</sup>	Females	24 weeks	513	651	790
	Males	22 weeks	326	530	736
	Males	23 weeks	376	609	852
	Males	24 weeks	433	699	982
	Females	22 weeks	314	496	755
United States (Alexander et al. 1996). <sup>4</sup>	Females	23 weeks	354	569	869
	Females	24 weeks	400	651	996
	Combined	20 weeks	275	412	772
	Combined	21 weeks	314	433	790
	Combined	22 weeks	376	496	826
	Combined	23 weeks	440	582	882
	Combined	24 weeks	498	674	977
