DATA EXTRACTION FORM

Instructions

Please read the article or document carefully from cover to cover and make notes as appropriate. Then answer the questions as best you can. Your answers should be typed electronically using Microsoft Word and this version of the questionnaire. When you finish, please email it to Henry Perry (hperry2@jhu.edu).

Each article will be reviewed independently by two reviewers, and a third reviewer will reconcile any differences encountered in the two reviews and submit the final consolidated review for analysis.

Identifying Information

1. List the complete reference (*authors, title, location of document*)

2. What type of document is this?

- a. Scientific article in peer-reviewed journal []
- b. Other journal publication []
- c. Unpublished project document (including evaluation) []
- d. Review article []
- e. Other (describe) _____ []

Level and Location of Project/Program/Study

3. At what level is this project/program/study?

- a. Single community []
- b. Set of communities []
- c. Sub-province (or district) []
- d. Province []
- e. National []
- f. Multinational []
- g. Policy []
- h. Other (describe) _____ []
- i. Unknown []

4. Country(ies) _____

5. If the project/program/study is within one country, indicate the name of the specific location of the study.

6. Type of geographical area (*check all that apply*)

- a. Urban []
- b. Peri-urban []
- c. Rural []
- d. Tropical lowlands []
- e. Tropical mountainous []
- f. Mountainous desert []
- g. Non-Tropical area []
- h. Other (specify) _____ []
- i. Unknown []

DATA EXTRACTION FORM

Study Interventions (check any that apply)

7. a. Is there any other ongoing intervention or program that this specific report is a part of?

- Yes []
No []

b. If "yes", please describe it:

c. Is this project/program/study a part of a larger project/program/study? If so, please describe the larger effort. (Use the paper's own words if possible)

Note: All subsequent questions will refer to the specific project/program/study which the paper you are reviewing refers to and not any other broader ongoing assessments at the study site.)

8. What was the objective of the project/program/study? (Use the paper's own words if possible)

9. Maternal health topic area (Mark 'X' for Yes; leave blank for No)

- a. Antenatal care []
- b. Screening for high-risk pregnancies []
- c. Gestational diabetes screening/monitoring []
- d. Post-partum care/home visit for post-partum care []
- e. Detection/treatment of complications of pregnancy (infection, depression, obstetric fistula, etc.) []
- f. Monitoring/control of blood pressure (and hypertension) []
- g. Detection/treatment of infection/sepsis []
- h. Detection of obstetrical complications []
- i. Development of birthing plan []
- j. Promotion of or utilization of trained attendant at delivery []
- k. Safe delivery kits/assistance with safe delivery []
- l. Training/support and use of traditional birth attendants []
- m. Promotion of facility-based delivery []
- n. Abortion and post-abortion care []
- o. Prevention/detection/treatment of anemia []
- p. Prevention/detection/treatment of hemorrhage []
- q. Immediate breastfeeding post-partum []
- r. Prevention/detection/treatment of pre-eclampsia or eclampsia []
- s. Referral for care of obstetrical complications []
- t. Maternal weight/height/nutritional status []
- u. Micronutrients []
- v. Malaria prevention []
- w. Malaria treatment []
- x. HIV prevention []

DATA EXTRACTION FORM

- y. HIV/AIDS treatment []
- z. Sexually transmitted disease/reproductive tract infection prevention []
- aa. Sexually transmitted disease/reproductive tract infection treatment []
- bb. Tetanus prevention []
- cc. Tetanus treatment []
- dd. Syphilis prevention []
- ee. Syphilis treatment []
- ff. Immunizations []
- gg. Family planning (including immediate post-partum contraception) []
- hh. Primary health care []
- ii. Women's empowerment []
- jj. Participatory women's groups []
- kk. Micro-credit/savings groups []
- ll. Gender violence []
- mm. Mental health []
- nn. Conditional cash transfers []
- oo Other []
(specify) _____
- pp. Unknown []

10a. Interventions (*one per line for first 4*)

- a. first (major one) _____
- b. second _____
- c. third _____
- d. fourth _____
- e. all others _____

10b. Is there any additional important information about the interventions?

Project/Program/Study Implementers

11. Implementers of the intervention at the community level

a. Type of main/direct implementers of the intervention(s)

- 1. Local community members only (who are not trained to be community health workers) []
- 2. Community health workers (both paid and volunteer) []
- 3. Research workers only for this project/program/study []
- 4. Local government health professionals not selected by community []
- 5. Expatriates []
- 6. Other (specify) _____

b. Name of implementers: (*list names of the categories of people implementing the interventions which this study assesses, such as "auxiliary nurses" or "volunteer community health workers called Health Agents"*)

DATA EXTRACTION FORM

c. Other implementers at community level (*list any other implementers at the community level*)

12. a. Type of facilitating and/or stakeholding organization(s) (*entities which cooperated or which had a stake in the intervention or program but were not actual implementers*)

- | | |
|--|-----|
| 1. Community only | [] |
| 2. Local NGO | [] |
| 3. Local government | [] |
| 4. State or national government | [] |
| 5. International NGO | [] |
| 6. National NGO | [] |
| 7. Faith-based organization | [] |
| 8. Profit or not-for-profit organization or foundation | [] |

b. Name of facilitating organization(s) and any other information:

13. Did any donor organization(s) support the study? (*We consider a donor organization to be one which has only a funding role with a limited advisory or review role.*)

- | | |
|-------------------------------|-------|
| 1. USAID | [] |
| 2. AusAid | [] |
| 3. DFID | [] |
| 4. CIDA | [] |
| 5. JICA | [] |
| 6. World Bank | [] |
| 7. WHO | [] |
| 8. UNICEF | [] |
| 9. Other UN Agency (specify) | _____ |
| 10. Private company (specify) | _____ |
| 11. Other (specify) | _____ |

Study Details

14. a. Study start year and month (MM/YYYY) _____/_____

b. Study end year and month (MM/YYYY) _____/_____

15. Please indicate the length of time during which the study took place

- | | | |
|----------------------|---|-----|
| Longer than 10 years | 4 | [] |
| 5 - 9.9 years | 3 | [] |
| 1.0 - 4.9 years | 2 | [] |
| Less than 1.0 year | 1 | [] |
| Not applicable | 9 | [] |

DATA EXTRACTION FORM

16. Design (*type of study*)

- | | |
|--|--------------------------------|
| 1. Randomized controlled intervention | <input type="checkbox"/> |
| 2. Non-randomized controlled intervention | <input type="checkbox"/> |
| 3. Uncontrolled intervention | <input type="checkbox"/> |
| 4. Case-control cross-sectional study | <input type="checkbox"/> |
| 5. Cross-sectional study | <input type="checkbox"/> |
| 6. Descriptive study | <input type="checkbox"/> |
| 7. Non-study activity (specify) | <input type="checkbox"/> _____ |

Study population (*describe by grouping, e.g., villages, households or persons, and number of each*)

17. Intervention group _____

18.a. Was there a control group? yes ___/no ___

b. If Yes, please list: _____

19. If control group present, please indicate:

- | | |
|---|----------------|
| a. Were the intervention and control groups/areas selected at random? | yes ___/no ___ |
| b. Were there community and facility-based arms in the intervention and control groups? | yes ___/no ___ |
| c. Were there baseline comparisons of the intervention and control groups/areas | yes ___/no ___ |
| d. Were there notable differences in socio-demographic characteristics or in other indicators of interest between the intervention and control groups/control areas at baseline? | yes ___/no ___ |

If yes, please explain further: _____

20. If no control group, was there any other reference or comparison group used? yes ___/no ___

If yes, please explain further: _____

21. Age range of women in the study

22. Any special characteristics of the study population? (*e.g., in terms of sex, socio-economic status, characteristics of the children's mothers*)

23. Other relevant characteristics of study population (*e.g., ethnic, cultural, occupational, etc.*)

DATA EXTRACTION FORM

24. Were men in the community involved in any way (e.g., fathers, husbands, community leaders, traditional healers)? yes ___/no ___/not specified ___

Explain further:

Project/Program/Study Context

25. What additional information about the context in which the intervention was implemented (aside from the study population characteristics mentioned in Questions 22-23) is significant? (e.g., epidemiological situation, status of the health services, long-term presence of research organization, etc.)

26. What "system" inputs were provided by the project/program/study for implementers at the community level? (e.g., training in health care or promotion skills, managerial support, logistics, referral, supervision, and monitoring)

Study Outcomes (refer back to Questions 7-9)

27. a. Outcome variables (one per line)

- 1. Major outcome _____
- 2. Second outcome _____
- 3. Third outcome _____
- 4. Other outcomes _____

b. Table of outcome variables and significance level

Outcome	Result (check one)		By ___ %	What was the level of statistical significance?
	increased ___	decreased ___		
e.g., bednet coverage	increased X	decreased ___	27%	<0.001
1.	increased ___	decreased ___		
2.	increased ___	decreased ___		
3.	increased ___	decreased ___		
4.	increased ___	decreased ___		

28. Comment on outcomes

DATA EXTRACTION FORM

29. Other key findings not mentioned in your responses to Questions 27 and 28, including unanticipated findings: include details of changes in outcomes, statistical details, and key conclusions. *(This question is intended to emphasize findings not clearly intended from the interventions mentioned in Questions 7-9.)*

- a. Evidence of specific positive health effect(s) []
- b. No useful evidence of any effect []
- c. Evidence of specific negative health effect(s) []
- d. Evidence of effects worth noting other than the intended effect(s) []

Additional comments *(Make it explicit if you are highlighting findings that the authors themselves have not emphasized. List each finding separately.)*

DATA EXTRACTION FORM

30. Which of the following activities/processes/outcomes were included as part of the study?

Activities

- a. Micro-credit yes ___/no ___
- b. Income generation yes ___/no ___
- c. Conditional cash transfer yes ___/no ___
- d. Participatory rural appraisal yes ___/no ___
- e. Training of community health workers yes ___/no ___
- f. Formation and/or support of community groups yes ___/no ___

Processes

- a. Promotion of equity yes ___/no ___
- b. Promotion of leadership within the community yes ___/no ___
- c. Promotion of partnerships between the community and the health program yes ___/no ___
- d. Promotion of systems for adaptive learning yes ___/no ___
- e. Promotion of the use of local resources for program support yes ___/no ___
- f. Promotion of community empowerment yes ___/no ___
- g. Promotion of women's empowerment yes ___/no ___

Outcomes

- a. Assessment of sustainability yes ___/no ___
- b. Assessment of community empowerment yes ___/no ___
- c1. Assessment of women's empowerment yes ___/no ___
- c2. Assessment of equity yes ___/no ___
- d. Assessment of cost-effectiveness yes ___/no ___
- e. Assessment of scalability (ease of scaling up to a larger population) yes ___/no ___

31. Provide any additional details about the interventions that may be relevant (e.g., coverage, equity, quality, and quantity that were shown to be relevant to the outcomes observed)

32. Describe any evidence about cost effectiveness:

DATA EXTRACTION FORM

33. Describe any social empowerment processes underway in the context of the project/program/study that might explain some of the findings or contribute to the findings: *(Include here a brief outline of specific empowerment processes that were planned whose presence you have noted in your summary answers in Question 30-Outcomes b and c. If necessary, go back and review or modify your responses. The processes we are trying to identify here include empowerment of individual local community members, of the community as a whole, or of health staff. Forms of empowerment include, but are not limited to, education and training as well as transfer of roles, skills and responsibilities. Were these processes deliberately encouraged by the project/program/study or incidental to it?)*

34. a. Did the project/program/study gather and use data for monitoring and evaluation? yes ___/no ___

b. If "yes", describe how:

Factors Other than Technical Design of Project/Program/Study Influencing Outcomes Studied

35. Level of community involvement (put an "X" in the appropriate box for planning, for implementation, and for evaluation)

Role of the community in:	Level of community involvement				Information inadequate to make judgment
	Highly involved	Moderately involved	Minimally involved	No involvement	
Planning					
Implementation					
Evaluation					

36. Describe the role of the community in the project/program/study. Was this intended by the project/study? What did the project/study do to realize this role for the community? *(Here, give specific details regarding the involvement summarized in Question 35)*

37. Do you have any additional observations regarding the level of community involvement? *(e.g., source of evidence, any uncertainties regarding level of community involvement)*

DATA EXTRACTION FORM

38. a. Are there any other influences which might have affected the success or failure of the project/program/study? (Mark "yes" if you assess that this attribute was present and influenced the outcome of the study)

	Yes	No
1. Commitments to equity and collaboration	[]	[]
2. Presence of strong local leadership	[]	[]
3. Partnerships between community, policy makers, technical experts	[]	[]
4. Systems for local adaptive learning	[]	[]
5. Local resources	[]	[]
6. Micro-credit	[]	[]
7. Income generation	[]	[]
8. Sustainability	[]	[]
9. Interdependence	[]	[]
10. Holistic and iterative action	[]	[]
11. Political or social factors, such as a recent change in government	[]	[]
12. Recent or current popular mobilizations	[]	[]
13. Other (specify) _____		

b. Further description if necessary:

39. a. Are there any substantial biases or other important limitations which are apparent to you?
yes ___/no ___

b. If "yes", please describe:

40. What are the conditions and contextual factors which have contributed to the effectiveness (or ineffectiveness) of the interventions? (We have asked previously about which conditions or contextual factors were present. Here, we are asking you to indicate which of these had an important influence on the study's outcomes. Consider here information about such things as appropriate and timely referrals to the health system, identification of high-risk pregnant women -- including recognition of severe illness and danger signs, equity, gender, cost, coverage, and sustainability.).

DATA EXTRACTION FORM

41. a. Did this study show that community participation had an effect on health outcome? (This question asks you to make a judgment on the presence of findings on community participation that you included previously in Questions 36 and 37)

yes ___/no ___

b. If "yes", was it positive or negative? Positive ___ / negative ___

c. Describe the specific role community participation played (or did not play) in reaching the observed health outcome? (If information not provided, indicate this.)

42. a. Did this study show that linkages between the health system and the community had an effect on health outcome? yes ___/no ___

b. If "yes", was it positive or negative? Positive ___ / negative ___

c. Describe the specific linkages and the role they played (or did not play) in reaching the observed health outcome? (If information not provided, indicate this.)

Reviewer's Assessment of Study Quality

43. Please provide your assessment of the quality of the study based on the following (If this question does not seem applicable to your study type, check NA):

43a. Methodology

- a. Was there an appropriate control group? yes ___/no ___/NA ___
- b. Was the sample size adequate to detect a meaningful difference in outcome? yes ___/no ___/NA ___
- c. Was the data collection appropriate? yes ___/no ___/NA ___
- d. Are there any substantial biases present? yes ___/no ___/NA ___
- e. Does the analysis of the data appear appropriate? yes ___/no ___/NA ___
- f. Overall, does the methodology appear sound? yes ___/no ___/NA ___

43b. Please indicate which of the following characteristics the study had. Each characteristic is worth 1 point. On the right-hand column please put the total number of points (8 total).

Cohort Study	Control or comparison group	Pre/post intervention data	Random assignment of participants to the intervention	Random selection of participants for assessment	Follow-up rate of 80% or more	Comparison groups equivalent on socio-demographics	Comparison groups equivalent at baseline on outcome measure	Final score (out of 8)

DATA EXTRACTION FORM

43c. Please add any additional comments that seem appropriate.

44. Please summarize here the deficiencies and the strengths related to the quality of the study.

Strengths: _____

Weaknesses: _____

45. What is your overall assessment of the quality of the study?

46. Please rate the overall quality of the study

Exceptional quality	5	[]
High quality	4	[]
Good quality	3	[]
Poor quality	2	[]
Unacceptable quality	1	[]
Not applicable	9	[]

47. Approximately how many people were included in the study?

Number of women in study > 100,000	4	[]
Number of women in study 25,000 - 99,999	3	[]
Number of women in study 5,000 - 24,999	2	[]
Number of women in study < 5,000	1	[]
Not applicable	9	[]

Reviewer Identification

48. Reviewer (type your first and last name): _____

49. Date of review (DD/MM/YYYY) _____ / _____ / _____

50. How much time did you spend reading the document and filling out the questionnaire?

Please email this form to Dr. Henry Perry (hperry2@jhu.edu).

Thank you for your assistance!

Instructions

Please read the article or document carefully from cover to cover and make notes as appropriate. Then answer the questions as best you can. Your answers should be typed electronically using Microsoft Word and this version of the questionnaire. When you finish, please email it to Henry Perry (hperry2@jhu.edu). Each article will be reviewed independently by two reviewers, and another person will reconcile any differences encountered in the two reviews and submit the final consolidated review for analysis.

Identifying Information

1. List the complete reference (*authors, title, location of document*)

2. What type of document is this?

- a. Scientific article in peer-reviewed journal []
- b. Other journal publication []
- c. Unpublished project document (including evaluation) []
- d. Review article []
- e. Other (describe) _____ []

Level and Location of Project/Program/Study

3. At what level is this project/program/study?

- a. Single community []
- b. Set of communities []
- c. Sub-province (or district) []
- d. Province []
- e. National []
- f. Multinational []
- g. Policy []
- h. Other (describe) _____ []
- i. Unknown []

4. Country(ies) _____

5. If the project/program/study is within one country, indicate the name of the specific location of the study

6. Type of geographical area (*check all that apply*)

- a. Urban []
- b. Peri-urban []
- c. Rural []
- d. Tropical lowlands []
- e. Tropical mountainous []
- f. Mountainous desert []
- g. Non-Tropical area []
- h. Other (specify) _____ []
- i. Unknown []

DATA EXTRACTION FORM

Study Interventions (check any that apply)

7. a. Is there any other ongoing intervention or program that this specific report is a part of?

- Yes []
No []

b. If "yes", please describe it:

c. Is this project/program/study a part of a larger project/program/study? If so, please describe the larger effort. (Use the paper's own words if possible)

Note: All subsequent questions will refer to the specific project/program/study which the paper you are reviewing refers to and not any other broader ongoing assessments at the study site.)

8. What was the objective of the project/program/study? (Use the paper's own words if possible)

9. Child health topic area (Mark 'X' for Yes; leave blank for No)

- | | |
|--|-------|
| a. Child weight/height | [] |
| b. Breastfeeding | [] |
| c. Complementary feeding | [] |
| d. Micronutrients | [] |
| e. Diarrhea prevention | [] |
| f. Diarrhea treatment | [] |
| g. Pneumonia prevention | [] |
| h. Pneumonia treatment | [] |
| i. Malaria prevention | [] |
| j. Malaria treatment | [] |
| k. HIV prevention | [] |
| l. HIV/AIDS treatment | [] |
| m. Neonatal tetanus prevention | [] |
| n. Neonatal tetanus treatment | [] |
| o. Measles prevention | [] |
| p. Measles treatment | [] |
| q. Congenital syphilis prevention | [] |
| r. Congenital syphilis treatment | [] |
| s. Immunizations | [] |
| t. Neonatal/perinatal health | [] |
| u. Childhood illness/IMCI (integrated management of childhood illness) | [] |

| w. Other (specify) | _____ |
| x. Unknown | [] |

DATA EXTRACTION FORM

10a. Interventions (one per line for first 4)

- a. first (major one) _____
- b. second _____
- c. third _____
- d. fourth _____
- e. all others _____

10b. Is there any additional important information about the interventions?

Project/Program/Study Implementers

11. Implementers of the intervention at the community level

a. Type of main/direct implementers of the intervention(s)

- 1. Local community members only (who are not trained to be community health workers) []
- 2. Community health workers (both paid and volunteer) []
- 3. Research workers only for this project/program/study []
- 4. Local government health professionals not selected by community []
- 5. Expatriates []
- 6. Other (specify) _____ []

b. Name of implementers: (list names of the categories of people implementing the interventions which this study assesses, such as "auxiliary nurses" or "volunteer community health workers called Health Agents")

c. Other implementers at community level (list any other implementers at the community level)

12. a. Type of facilitating and/or stakeholding organization(s) (entities which cooperated or which had a stake in the intervention or program but were not actual implementers)

- 1. Community only []
- 2. Local NGO []
- 3. Local government []
- 4. State or national government []
- 5. International NGO []
- 6. National NGO []
- 7. Faith-based organization []
- 8. Profit or not-for-profit organization or foundation []

DATA EXTRACTION FORM

b. Name of facilitating organization(s) and any other information:

13. Did any donor organization(s) support the study? (*We consider a donor organization to be one which has only a funding role with a limited advisory or review role.*)

- 1. USAID []
- 2. AusAid []
- 3. DFID []
- 4. CIDA []
- 5. JICA []
- 6. World Bank []
- 7. WHO []
- 8. UNICEF []
- 9. Other UN Agency (specify) _____
- 10. Private company (specify) _____
- 11. Other (specify) _____

Study Details

14. a. Study start year and month (MM/YYYY) _____ / _____

b. Study end year and month (MM/YYYY) _____ / _____

15. Please indicate the length of time during which the study took place

- | | | |
|----------------------|---|-----|
| Longer than 10 years | 4 | [] |
| 5 - 9.9 years | 3 | [] |
| 1.0 - 4.9 years | 2 | [] |
| Less than 1.0 year | 1 | [] |
| Not applicable | 9 | [] |

16. Design (*type of study*)

- 1. Randomized controlled intervention []
- 2. Non-randomized controlled intervention []
- 3. Uncontrolled intervention []
- 4. Case-control cross-sectional study []
- 5. Cross-sectional study []
- 6. Descriptive study []
- 7. Non-study activity (specify) [] _____

Study population (*describe by grouping, e.g., villages, households or persons, and number of each*)

17. Intervention group _____

18.a. Was there a control group? yes ___/no ___

b. If Yes, please list: _____

DATA EXTRACTION FORM

26. What "system" inputs were provided by the project/program/study for implementers at the community level? (e.g., training in health care or promotion skills, managerial support, logistics, referral, supervision, and monitoring)

Study Outcomes (refer back to Questions 7-9)

27. a. Outcome variables (one per line)

- 1. Major outcome _____
- 2. Second outcome _____
- 3. Third outcome _____
- 4. Other outcomes _____

b. Table of outcome variables and significance level

Outcome	Result (check one)		By %	What was the level of statistical significance?
	increased	decreased		
e.g., bednet coverage	increased <input checked="" type="checkbox"/>	decreased <input type="checkbox"/>	27%	<0.001
1.	increased <input type="checkbox"/>	decreased <input type="checkbox"/>		
2.	increased <input type="checkbox"/>	decreased <input type="checkbox"/>		
3.	increased <input type="checkbox"/>	decreased <input type="checkbox"/>		
4.	increased <input type="checkbox"/>	decreased <input type="checkbox"/>		

28. Comment on outcomes

29. Other key findings not mentioned in your responses to Questions 27 and 28, including unanticipated findings: include details of changes in outcomes, statistical details, and key conclusions. (This question is intended to emphasize findings not clearly intended from the interventions mentioned in Questions 7-9.)

- a. Evidence of specific positive health effect(s) []
- b. No useful evidence of any effect []
- c. Evidence of specific negative health effect(s) []
- d. Evidence of effects worth noting other than the intended effect(s) []

Additional comments (Make it explicit if you are highlighting findings that the authors themselves have not emphasized. List each finding separately.)

DATA EXTRACTION FORM

30. Which of the following activities/processes/outcomes were included as part of the study?

Activities

- a. Micro-credit yes ___/no ___
- b. Income generation yes ___/no ___
- c. Conditional cash transfer yes ___/no ___
- d. Participatory rural appraisal yes ___/no ___
- e. Training of community health workers yes ___/no ___
- f. Formation and/or support of community groups yes ___/no ___

Processes

- a. Promotion of equity yes ___/no ___
- b. Promotion of leadership within the community yes ___/no ___
- c. Promotion of partnerships between the community and the health program yes ___/no ___
- d. Promotion of systems for adaptive learning yes ___/no ___
- e. Promotion of the use of local resources for program support yes ___/no ___
- f. Promotion of community empowerment yes ___/no ___
- g. Promotion of women's empowerment yes ___/no ___

Outcomes

- a. Assessment of sustainability yes ___/no ___
- b. Assessment of community empowerment yes ___/no ___
- c1. Assessment of women's empowerment yes ___/no ___
- c2. Assessment of equity yes ___/no ___
- d. Assessment of cost-effectiveness yes ___/no ___
- e. Assessment of scalability (ease of scaling up to a larger population) yes ___/no ___

31. Provide any additional details about the interventions that may be relevant (*e.g., coverage, equity, quality, and quantity that were shown to be relevant to the outcomes observed*)

32. Describe any evidence about cost effectiveness:

DATA EXTRACTION FORM

33. Describe any social empowerment processes underway in the context of the project/program/study that might explain some of the findings or contribute to the findings: *(Include here a brief outline of specific empowerment processes that were planned whose presence you have noted in your summary answers in Question 30-Outcomes b and c. If necessary, go back and review or modify your responses. The processes we are trying to identify here include empowerment of individual local community members, of the community as a whole, or of health staff. Forms of empowerment include, but are not limited to, education and training as well as transfer of roles, skills and responsibilities. Were these processes deliberately encouraged by the project/program/study or incidental to it?)*

34. a. Did the project/program/study gather and use data for monitoring and evaluation? yes __/no __
b. If "yes", describe how:

Factors Other than Technical Design of Project/Program/Study Influencing Outcomes Studied

35. Level of community involvement (put an "X" in the appropriate box for planning, for implementation, and for evaluation)

Role of the community in:	Level of community involvement				Information inadequate to make judgment
	Highly involved	Moderately involved	Minimally involved	No involvement	
Planning					
Implementation					
Evaluation					

36. Describe the role of the community in the project/program/study. Was this intended by the project/study? What did the project/study do to realize this role for the community? *(Here, give specific details regarding the involvement summarized in Question 35)*

37. Do you have any additional observations regarding the level of community involvement? *(e.g., source of evidence, any uncertainties regarding level of community involvement)*

DATA EXTRACTION FORM

38. a. Are there any other influences which might have affected the success or failure of the project/program/study? (Mark "yes" if you assess that this attribute was present and influenced the outcome of the study)

	Yes	No
1. Commitments to equity and collaboration	[]	[]
2. Presence of strong local leadership	[]	[]
3. Partnerships between community, policy makers, technical experts	[]	[]
4. Systems for local adaptive learning	[]	[]
5. Local resources	[]	[]
6. Micro-credit	[]	[]
7. Income generation	[]	[]
8. Sustainability	[]	[]
9. Interdependence	[]	[]
10. Holistic and iterative action	[]	[]
11. Political or social factors, such as a recent change in government	[]	[]
12. Recent or current popular mobilizations	[]	[]
13. Other (specify) _____		

b. Further description if necessary:

39. a. Are there any substantial biases or other important limitations which are apparent to you?
yes ___/no ___

b. If "yes", please describe:

40. What are the conditions and contextual factors which have contributed to the effectiveness (or ineffectiveness) of the interventions? (We have asked previously about which conditions or contextual factors were present. Here, we are asking you to indicate which of these had an important influence on the study's outcomes. Consider here information about such things as appropriate and timely referrals to the health system, identification of high-risk children -- including recognition of severe illness and danger signs, equity, gender, cost, coverage, and sustainability.)

DATA EXTRACTION FORM

41. a. Did this study show that community participation had an effect on health outcome? *(This question asks you to make a judgment on the presence of findings on community participation that you included previously in Questions 36 and 37)*

yes ___/no ___

b. If "yes", was it positive or negative? Positive ___ / negative ___

c. Describe the specific role community participation played (or did not play) in reaching the observed health outcome? *(If information not provided, indicate this.)*

42. a. Did this study show that linkages between the health system and the community had an effect on health outcome? yes ___/no ___

b. If "yes", was it positive or negative? Positive ___ / negative ___

c. Describe the specific linkages and the role they played (or did not play) in reaching the observed health outcome? *(If information not provided, indicate this.)*

Reviewer's Assessment of Study Quality

43. Please provide your assessment of the quality of the study based on the following *(If this question does not seem applicable to your study type, check NA):*

43a. Methodology

- a. Was there an appropriate control group? yes ___/no ___/NA ___
- b. Was the sample size adequate to detect a meaningful difference in outcome? yes ___/no ___/NA ___
- c. Was the data collection appropriate? yes ___/no ___/NA ___
- d. Are there any substantial biases present? yes ___/no ___/NA ___
- e. Does the analysis of the data appear appropriate? yes ___/no ___/NA ___
- f. Overall, does the methodology appear sound? yes ___/no ___/NA ___

43b. Please indicate which of the following characteristics the study had. Each characteristic is worth 1 point. On the right-hand column please put the total number of points (8 total).

Cohort Study	Control or comparison group	Pre/post intervention data	Random assignment of participants to the intervention	Random selection of participants for assessment	Follow-up rate of 80% or more	Comparison groups equivalent on socio-demographics	Comparison groups equivalent at baseline on outcome measure	Final score (out of 8)

DATA EXTRACTION FORM

43c. Please add any additional comments that seem appropriate.

44. Please summarize here the deficiencies and the strengths related to the quality of the study.

Strengths: _____

Weaknesses: _____

45. What is your overall assessment of the quality of the study?

46. Please rate the overall quality of the study

Exceptional quality	5	[]
High quality	4	[]
Good quality	3	[]
Poor quality	2	[]
Unacceptable quality	1	[]
Not applicable	9	[]

47. Approximately how many people were included in the study?

Number of children in study > 100,000	4	[]
Number of children in study 25,000 - 99,999	3	[]
Number of children in study 5,000 - 24,999	2	[]
Number of children in study < 5,000	1	[]
Not applicable	9	[]

Reviewer Identification

48. Reviewer (type your first and last name): _____

49. Date of review (DD/MM/YYYY) _____/_____/_____

50. How much time did you spend reading the document and filling out the questionnaire?

Please email this form to Dr. Henry Perry (hperry2@jhu.edu).
Thank you for your assistance!

Table S7. Reviewers of assessments

Last name	First Name	Degrees (at the time of their participation in the review)	Other Information
Adhikari	Binita	MSPH candidate	Department of International Health, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Aftab	Asma	MD, MPH	Assistant Scientist, Department of Family Medicine and Community Health, University of Miami School of Medicine, Miami, FL
Ahmadi	Azal	PhD candidate	Department of International Health, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Aitken	Iain	MD, MPH	Principal Program Associate, Center for Health Outcomes, Management Sciences for Health, Cambridge, MA
Altobelli	Laura	RN, DrPH	Country Director, Future Generations/Peru, Lima, Peru
Anakwenze	Chidinma	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Asgary	Ramin	MD, MPH, MSc, CTM&H	Assistant Professor, Departments of Internal Medicine and Family & Social Medicine, Montefiore Medical Center, Bronx, NY
Hill	Ann Ashworth	PhD	Professor Emeritus of Community Nutrition, London School of Hygiene and Tropical Medicine, London, England
Berggren	Gretchen	MD, MPH	International Public Health Consultant, Golden, CO
Berggren	Warren	MD, DrPH	International Public Health Consultant, Boulder, CO
Boswell	Claire	MPH	International Public Health Consultant, Alexandria, VA
Bowen	Lisa	MPH	International Health Consultant, Boone, NC
Brown	Amberle	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Bryant	Jack	MD	Adjunct Professor, Department of International Health, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Cesar	Juraci	MD, PhD	Adjunct Professor, Division of Population & Health, Faculty of Medicine, Universidade Federal do Rio Grande, Rio Grande, RS, Brazil
Chan	Elizabeth	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Chang	Stephanie	MD, MPH	Clinical Research Fellow, Division of General Internal Medicine, Department of Medicine, Johns Hopkins University, Baltimore, MD
Cheatham	Elizabeth	MA, MPH	Operations Manager, Konbit Sante, Portland, ME
Chitnis	Ketan	PhD	Programme Communication Officer, UNICEF, New York, NY
Christie	Len	MD, MPH	Cardiology consultant, Eugene, OR

Last name	First Name	Degrees (at the time of their participation in the review)	Other Information
Crouse	Deanna	MPH	Senior Program Manager, Social & Scientific Systems, Inc., Washington, DC
Davachi	Christine	MSc	Development Economics, School of Oriental and African Studies, University of London, England
Dortonne	Jean Richard	MD	International Public Health Consultant, Montreal, Canada
Dowell	Duane	MD	International Pediatric Specialist (retired), Ann Arbor, MI
Emami	Ashkan	JD candidate	American University, Washington, DC
Enoh	Sheila	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Fan	Qi	MSPH candidate	Department of International Health, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Fort	Meredith	PhD candidate	University of Washington School of Public Health, Department of International Health, Seattle, WA
Freeman	Paul	MD, DrPH, MPH	International Public Health Consultant, Seattle, WA
George	Asha	D Phil, MPH	Health Specialist, Community-based Approaches, Policy and Evidence Unit, Health Programme Division, UNICEF, New York, NY
Grant	Juliana	MPH	Epidemiologic Intelligence Service, Centers for Disease Control, Atlanta, GA
Grau	Stacy	MPH	Child Survival Technical Advisor, World Relief, Maputu, Mozambique
Gupta	Sundeep	MD, MPH	CDC Global AIDS Program, Honduras Country Director, Tegucigalpa, Honduras
Habarta	Nancy	MPH	Research Fellow, Centers for Disease Control, Atlanta, GA
Haq	Nowreen	MD, MPH	Research Program Coordinator, Division of General Internal Medicine, Johns Hopkins Medical Institutions, Baltimore, MD
Haq	Runa	MD, MPH	Health consultant and advocate for adolescents and youth, Baltimore, MD
Hashemi	Paymon	MPH	Research Assistant, Environmental Epidemiology Service, Department of Veterans Affairs, Washington, DC
Hershberger	Ann	RN, PhD	Professor of Nursing, Eastern Mennonite University, Harrisonburg, VA
Hill	Zelee	PhD, MSc	Research Fellow, London School of Hygiene and Tropical Medicine, London, England

Last name	First Name	Degrees (at the time of their participation in the review)	Other Information
Hoar	Sandy	MPAS, PA-C	Assistant Clinical Professor, Health Sciences Programs and Global Health, George Washington University, Washington, DC
Jani	Asim	MD, MPH	Medical Epidemiologist, Coordinating Office for Global Health, Centers for Disease Control and Prevention, Atlanta, GA
Kim	Dennis	MHS candidate	Reproductive and Cancer Biology, Johns Hopkins School of Public Health, Baltimore, MD
Kim	Woon Cho	MPH candidate	Department of Epidemiology, Rollins School of Public Health, Emory University, Atlanta, GA
Kumar	Ajoy	MSc	Vaccine Quality Control, Biological E Pvt Ltd, Hyderabad, India
Laswell	Stacy	MPH	ORISE Fellow (Reproductive Health for Refugees), Division of Reproductive Health, Centers for Disease Control and Prevention, Atlanta, GA
Llanque	Ramiro	MD, MPH	Program Advisor, Consejo de Salud Rural Andino, La Paz, Bolivia
Long	Amanda	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Mataya	Ron	MD	Chairman and Assistant Professor, Department of Global Health, Loma Linda University School of Public Health, Loma Linda, CA
McCord	Colin	MD	International Public Health Specialist, New York, NY
McMorrow	Meredith	MD, MPH	Malaria Branch, Division of Parasitic Diseases, Centers for Disease Control and Prevention, Atlanta, GA
Menager	Henri	MD, MPH	Epidemiologist, Cancer Prevention and Control Program, Office of Health Promotion, Kansas Department of Health and Environment, Topeka, KS
Mendoza-Sassi	Raul	MD, PhD	Adjunct Professor, Division of Population & Health, Faculty of Medicine, Universidade Federal do Rio Grande, Rio Grande, RS, Brazil
Menson	William	MD	MPH student, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Metangmo	Pierre-Marie	MD, MA, MPH	Senior Technical Advisor, Africa Leadership, Management & Sustainability Program Management Sciences for Health Cambridge, MA
Mirchandani	Gita	PhD, MPH	EIS Fellow, Epidemiology and Disease Control Programs, Maryland Department of Health and Mental Hygiene, Baltimore, MD
Morgan	Mary	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD

Last name	First Name	Degrees (at the time of their participation in the review)	Other Information
Neat	Lenna	MPH candidate	Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Ogundalu	Oluwatosin	MPH candidate	Rollins School of Public Health, Emory University, Atlanta, GA
Paredes	Pat	MD, MSc, DrPH	Global Health Consultant, Washington, DC
Parekh	Vikash	MHS	Port St. Lucie, FL
Passeri	Carlo	MHS candidate	Department of Biochemistry, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD
Patel	Zohra	PhD candidate	Department of International Health, Bloomberg School of Public Health, Johns Hopkins University, Baltimore, MD

Ecuador	6	0	6	0.8%
Guatemala	2	3	5	0.6%
Haiti	9	0	9	1.1%
Honduras	2	1	3	0.4%
Jamaica	1	0	1	0.1%
Mexico	4	0	4	0.5%
Nicaragua	5	2	7	0.9%
Peru	8	2	10	1.3%
Trinidad	1	0	1	0.1%
The Eastern Mediterranean Region	39	22	61	7.8%
Afghanistan	8	4	12	1.5%
Egypt	6	1	7	0.9%
Iran	2	1	3	0.4%
Pakistan	21	14	35	4.5%
Somalia	1	0	1	0.1%
Syria	1	1	2	0.3%
Yemen	0	1	1	0.1%
Europe	3	1	4	0.5%
Armenia	1	0	1	0.1%
Kyrgyz Republic	1	0	1	0.1%
Turkey	1	1	2	0.3%
South-East Asia	180	44	224	28.5%
Bangladesh	61	16	77	9.8%
Bhutan	1	0	1	0.1%

Region/country	Child	Maternal	Total	Percent
India	70	15	85	10.8%
Indonesia	8	1	9	1.1%
Myanmar	2	1	3	0.4%
Nepal	37	10	47	6.0%
Sri Lanka	0	1	1	0.1%
Thailand	1	0	1	0.1%
The Western Pacific Region	30	7	37	4.7%
Cambodia	5	2	7	0.9%
China	4	2	6	0.8%
Laos	4	0	4	0.5%
Malaysia	1	0	1	0.1%
Mongolia	1	0	1	0.1%
Papua New Guinea	2	1	3	0.4%
Philippines	2	2	4	0.5%
Vietnam	11	0	11	1.4%

*Total number of countries is larger than 698 because some assessments were carried out in more than one country.

Table S9. Maternal health indicators from assessments included in the review of the effectiveness of community-based primary health care*

Category of outcome	Specific indicator
Change in mortality	Maternal mortality ratio
	Number of obstetric causes of death per 10,000 women
	Cause-specific maternal mortality ratio
	Number of deaths from obstructed labor
	Case fatality of eclampsia cases
	Number of abortion-related deaths per 10,000 women
Change in serious morbidity	Incidence of post-partum hemorrhage/post-partum blood loss > 500mL or 1,000 mL
	Mean blood loss postpartum
	Incidence of post-partum “heavy vaginal bleeding” as reported by the mother or the health worker
	Need for transfer to a higher-level facility for blood transfusion or surgical intervention
	Presence of vaginal bleeding during pregnancy
	Incidence of obstructed labor or sequelae (i.e., obstetric fistula)
	Incidence of pre-eclampsia/eclampsia
	Incidence of edema
	Prevalence of anemia (variously defined)
	Incidence of clinical malaria/malaria parasitemia
	Incidence of depression
	Post-partum infection/puerperal sepsis/postpartum fever/maternal infection
	Incidence of adverse effects from misoprostol administered to prevent post-partum hemorrhage
	Maternal illness or obstetric complication not otherwise specified
	Trauma as a result of gender-based violence
Change in nutritional status	Height-for-weight index
	Body-mass index
	Mid-upper arm circumference
Change in population (or target group) coverage of key child survival interventions	
Key household behaviors	Safe delivery at home
	Delivery at home by a skilled attendant
	Participation in women’s organizations
	Birth preparedness
	Pregnancy occurring during the first 24 months postpartum
	Use of safe delivery practices
	Response to obstetric emergencies
	Receipt of antenatal care early in pregnancy (<20 weeks)

Category of outcome	Specific indicator
Utilization of key facility-based services	Utilization of antenatal care
	Delivery at a facility/birthing center by a skilled provider
	Access to emergency Obstetric facilities
	Access to curative care
Improvement in health care utilization or in quality of health care provided	Contact with community health worker (CHW) for prenatal or postnatal care
	Receipt of intermittent preventative therapy (IPT) during pregnancy
	Tetanus toxoid vaccination
	HIV testing during pregnancy
	Syphilis screening during pregnancy
	Antiretroviral therapy for pregnant women
	Utilization of post-partum family planning
	Receipt of iron supplements during pregnancy
	Receipt of folate supplements during pregnancy
	Receipt of vitamin A post-partum
	Receipt of uterotonic (misoprostol) post-partum
	Recognition of at-risk pregnancies
Change in health-related knowledge among parents/caretakers	Knowledge about family planning methods
	Village-level planning for obstetric emergencies
	Functioning village emergency transport committees
	Knowledge of pregnancy danger signs
	Knowledge of safe birthing procedures
Health system capacity	Registration of pregnancies
	Knowledge of health workers in MNCH
	Referrals of pregnant women by CHWs to health facilities

*Not all of the outcome measures are necessarily appropriate as outcome measures for the review but, if not, they were included in studies along with other outcome measures that were appropriate.

Table S10. Neonatal and child health indicators from assessments included in the review of the effectiveness of community-based primary health care*

Category of outcome	Specific indicator
Change in mortality	Under-5 mortality rate
	1-4-year mortality rate
	Infant mortality rate
	6-35-month mortality rate
	Early infant (0-3-month or 0-5-month) mortality rate
	Neonatal mortality rate
	Late (7-28-day) neonatal mortality rate
	Post-neonatal (1-11-month) mortality rate
	Perinatal mortality rate
	Stillbirth rate
	Maternal mortality ratio
	Asphyxia mortality rate
	Rate of miscarriage/spontaneous abortion
	DALYs (disability-adjusted life years) averted
	Years of expected life saved
	Pneumonia case fatality rate
	Diarrhea case fatality rate
	Malaria case fatality rate
	Neonatal tetanus case fatality rate
	18-month survival probability for HIV-exposed infants
Change in serious morbidity	Pneumonia incidence rate (including prevalence of ARI, prevalence of respiratory illness, percentage of weeks with ARI symptoms)
	Diarrhea incidence or prevalence rate (including number of days with diarrhea, percentage of days with diarrhea, proportion of children with diarrhea during a 90-day period, average duration of diarrheal episodes, and likelihood of recovery from diarrhea at 7 and 14 days)
	Incidence of severe diarrhea
	Incidence of dysentery/ number of days with dysentery
	Secondary infection rate with salmonella
	Malaria incidence/prevalence rate (including fever incidence rates in a malaria-endemic area, prevalence of malaria parasitemia, clinical relapse following an episode of malaria, progression to severe malaria, treatment failure, or acquired splenomegaly)
	Prevalence of pre-term birth
	Prevalence of small-for-gestational birth
	Presence of impetigo in low-birthweight infants
	Prevalence of anemia
	Incidence of maternal/congenital syphilis
	Prevalence of trachoma
	Number of measles cases
	Incidence of conjunctivitis

Category of outcome	Specific indicator
	Incidence of acute flaccid paralysis
	Incidence of polio
	Incidence of blindness
	Prevalence of night blindness or xerophthalmia
	Incidence/prevalence of HIV infection
	CD4 count
	Mother-to-child transmission of HIV infection
Change in nutritional status	Weight for age
	Height for age
	Height for weight
	Body-mass index for age
	Mid-upper-arm circumference
	Sub-scapular skin fold thickness
	Triceps skin fold thickness
	Weight gain/growth velocity
	Weight gain after entering nutritional intervention
	Child weight at 12 months of age
	Birthweight/prevalence of low birthweight
	Percentage of children with severe malnutrition
	Nutritional status of siblings
	Recovery from severe acute malnutrition
	Prevalence of Bitot's spots
	Prevalence of anemia
	Clinical signs of iodine deficiency
Progress in psychomotor development	Achievement of developmental milestones
	Psychomotor development score
	Mental development score
	Presence of behavioral problems
Change in population(or target group) coverage of key child survival interventions	
Key household behaviors	Healthy water, sanitation and hygiene practices (including handwashing, presence of soap for handwashing, presence of improved water in the village or house, quality of stored water in the household, safe water storage, use of latrines, use of refuse pits, appropriate disposal of children's feces, use of face cloth to wash children's faces, and food hygiene and cleanliness scores)

Category of outcome	Specific indicator
	Exclusive breastfeeding in first 1-2 hours of life and in the first 6 months of life, including median length of EBF
	Immediate breastfeeding (within the first hour after birth)
	Provision of colostrum to the newborn
	Prevalence or duration of breastfeeding (not necessarily exclusive)
	Increased breastfeeding during and after a child illness
	Use of bottle feeding
	Percentage of mothers who introduce complementary feeding at 6 months of age
	Use of (or presence of) insecticide-treated bed nets and/or curtains, or presence of spraying in the household
	Adherence to newborn care practices
	Drying and warming the newborn immediately after birth
	Proper care of the umbilical cord
	Percentage of mothers who took no action or who gave a home remedy for newborn danger signs
	Presence of household gardens or improved household food production
	Percentage of children consuming iron-rich or vitamin-A rich foods
	Duration of food insecure period for a household
	Percentage of pregnant women eating more than usual during pregnancy
	Percentage of pregnant women doing heavy work
Key services	Percentage of cases of children with symptoms of severe or moderate ARI contacting a primary health care worker/care seeking for cough and difficult breathing
	Percentage of cases of pneumonia receiving antibiotics
	Percentage of cases of pneumonia receiving early and appropriate treatment
	Percentage of cases of diarrhea receiving ORS or recommended home fluids
	Percentage of cases of diarrhea receiving continued feeding
	Percentage of cases of diarrhea receiving zinc supplementation
	Percentage of cases of malaria receiving early, appropriate treatment/percentage of children with fever receiving treatment within 24 hours
	Percentage of malaria cases treated by a CHW who need referral on the 3 rd day of treatment
	Percentage of pregnant women achieving compliance with intermittent preventive treatment of malaria
	Percentage of infants achieving compliance with intermitted preventive treatment of malaria

Category of outcome	Specific indicator
	Percentage of children/mothers with immunizations (the complete series or specific antigens such as measles, polio, tetanus toxoid, or DPT; immunization drop-out rate)
	Percentage of 6-59-month-old children receiving supplemental vitamin A during the previous 6 months
	Receipt of nutritional supplement
	Percentage of children with severe acute malnutrition receiving treatment
	Percentage of children weighed monthly
	Antenatal care/4 antenatal care visits
	Percentage of pregnant women receiving iron and folate
	Delivery by trained/skilled birth attendant
	Use of safe/clean delivery kit
	Health facility delivery by women with a pregnancy/birth complication
	Percentage of women who took misoprostol following delivery
	Percentage of women obtaining a post-partum visit within 7 days of birth
	Percentage of newborns receiving a check-up within 24 hours following delivery
	Utilization of family planning/contraceptive prevalence rate/adoption of family planning within 3 months of birth
	Uptake of voluntary counseling and testing (for HIV infection)
	Equity in change of population coverage (the degree to which changes in coverage are similar in different sub-populations defined by household wealth)
Improvement in health care utilization or in quality of health care provided	Utilization of health services
	Care seeking from unqualified providers
	Referral rate
	Percentage of ill children who are taken to a health facility or health worker for care
	Correct referral of pneumonia cases
	Percentage of ill children who obtained care at a health facility
	Number of child care visits to a health facility
	Percentage of children with diarrhea treated at a health facility who were kept in a rehydration unit and given ORS
	Prescription rates for ORS
	Percentage of providers who check children with diarrhea for at least 2 signs of dehydration
	Percentage of children with a Road-to-Health card

Category of outcome	Specific indicator
	Hospital inpatient admission rate
	Hospital inpatient admission rate for life-threatening malaria
	Percentage of cases of childhood pneumonia for which mother sought a trained health care provider
	Percentage of children with pneumonia who received treatment
	Percentage of cases of malaria treated in health facilities
	Percentage of pregnant women with fever for more than 3 days who sought treatment
	Percentage of cases of fever treated promptly
	Percentage of cases of malaria treated by CHWs
	Sales of antimalarial drugs/sales of antipyretic drugs
	Sales of insecticide-treated bed nets
	Percentage of pregnant women receiving prenatal home visits
	Number of antenatal care visits
	Laboratory exam performed at time of antenatal care visit
	Percentage of births taking place at a health care facility
	Percentage of mothers obtaining care during the post-partum period
	Referral of sick newborns for care
	Adherence to drug therapy for HIV infection
	Participation in women's groups
	Encounter with Community Health Workers/percentage of households visited by a CHW
	Percentage of women receiving advice from a CHW
	Compliance with recommendation for referral given by a CHW
Change in health-related knowledge among parents/ caretakers	
	Skills and knowledge about important child health issues
	Knowledge of serious childhood illness
	Knowledge about breastfeeding and its benefits
	Knowledge of signs of childhood pneumonia and need for treatment by a trained health care provider
	Knowledge about diarrhea prevention
	Knowledge of how to prepare oral rehydration solution
	Knowledge of danger signs of malaria
	Knowledge of the role of insecticide-treated bed nets in preventing malaria
	Knowledge of danger signs during pregnancy
	Knowledge of danger signs among newborns
	Knowledge about immunizations and vaccine-preventable diseases
	Knowledge of HIV prevention

Category of outcome	Specific indicator
	Knowledge about prevention of maternal-to-child transmission of HIV infection
	Knowledge of safe water storage
	Knowledge about prevention of night blindness with vitamin A supplementation
Appropriateness of community case management by Community Health Workers	Ability to detect cases of childhood pneumonia (sensitivity)
	Correctness of diagnosis of pneumonia (specificity)
	Use of timers (to measure respiratory rate)
	Correctness of advice for medication (including dosage) for treatment of pneumonia, diarrhea (with zinc) and malaria
	Error-free case management
	Accuracy of classification of sick children
	Use of rapid diagnostic tests for malaria diagnosis
Health system capacity	Presence of trained providers at the health facility
	Percentage of health facilities with essential drugs and supplies available
	Percentage of facilities implementing community-based IMCI
	Percentage of mothers who have access to an IMCI-trained provider
	Workload at the health facility
	District capacity to support community health services
	Adequacy of supervision
	Provision of supervision and supplies to CHWs
	Satisfaction of CHWs with training
	Formation of community committees to help with emergency transport
	Health centers with emergency transport in place
<p>*Not all of the outcome measures are necessarily appropriate as outcome measures for the review but, if not, they were included in studies along with other outcome measures that were appropriate.</p> <p>Note:</p> <p>ARI: acute respiratory infection</p> <p>DPT: diphtheria, pertussis and tetanus</p> <p>EBF: exclusive breastfeeding</p> <p>HIV: human immunodeficiency virus</p> <p>IMCI: Integrated Management of Childhood Illness</p>
