Supplemental Table 1: Laboratory Leadership Examples

Topic	Key citations
Patient safety	11,12,48
Laboratory quality improvement	13
Safety of electronic health records	16
Laboratory clinical effectiveness	17
Laboratory utilization management	18-21,39,44,53
Point-of-care testing	22
Chronic disease management	23
Disease management teams	8,9
Antibiotic stewardship	24-26
Infectious diseases outbreaks	27,28
Functional genomics	29
Computational Pathology	30,31
Machine learning	32
Biobanking	33
Cost effectiveness	41,45,53
Clinical Decision Support	37,54
Secondary Use of Laboratory data	50-53
