

Supplemental Figure S2. Circulating Cells Associated with Malignancy (CCAM) Enumeration by Histology and Stage.

Enumeration comparisons by histology of (A) CCAMs and (B) PD-L1(+) CCAMs in patients with non-zero CCAM counts. Enumeration comparisons by AJCC Stage of (C) CCAMs and (D) PD-L1(+) CCAMs. Box plots denote median and 25th/75th quantiles, with whiskers denoting the area up to 5th/95th quantiles, respectively. Points greater than 95th percentile or lower than 5th percentile are denoted as individual dots. (Online only).
