

Best,

A number of questions are found below. We ask that you please answer them based on *your own perception/experience* of the subject matter of the question.

Thank you in advance for your participation.

Background information

Sex/gender: _____ Year of birth: _____

Current position: _____

Number of years in current position: _____

Number of years in the profession: _____

Supplementary/further training: _____

How many patients with COPD do you meet during a regular working week?

0	1-2	3-5	6-10	11-15	> 15

1. Health promotion interventions

a. Offering health promotion interventions to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Disagree	Agree to some extent	Largely agree	Agree completely

b. Do you feel like you have sufficient knowledge to offer health promotion interventions to people with COPD?

<input type="checkbox"/> Yes, I essentially have sufficient knowledge	<input type="checkbox"/> No, I do not have sufficient knowledge
---	---

c. Do your work tasks include providing health promotion interventions to people with COPD?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

d. *If your work tasks include* providing health promotion interventions to people with COPD, have you encountered any difficulties in providing these interventions/activities?

Yes No

If yes, please describe _____

2. Tobacco prevention

a. Offering tobacco prevention to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

Disagree Agree to some extent Largely agree Agree completely

b. Do you feel like you have sufficient knowledge to offer tobacco prevention to people with COPD?

Yes, I essentially have sufficient knowledge No, I do not have sufficient knowledge

c. Do your work tasks include providing tobacco prevention to people with COPD?

Yes No

d. *If your work tasks include* providing tobacco prevention to people with COPD, have you encountered any difficulties in providing these interventions/activities?

Yes No

If yes, please describe _____

3. Disease-specific instruction

a. Offering disease-specific education to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

Disagree Agree to some extent Largely agree Agree completely

b. Do you feel like you have sufficient knowledge to offer disease-specific education to people with COPD?

Yes, I essentially have sufficient knowledge

No, I do not have sufficient knowledge

c. Do your work tasks include providing disease-specific education to people with COPD?

Yes

No

d. *If your work tasks include* providing disease-specific education to people with COPD, have you encountered any difficulties in providing this intervention/activity?

Yes

No

If yes, please describe _____

4. Self-care strategies

a. Providing information on strategies for COPD-related self-care (e.g. information on for which symptoms an individual should seek healthcare) to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

Disagree

Agree to
some extent

Largely
agree

Agree
completely

b. Do you feel like you have sufficient knowledge to provide information on strategies for COPD-related self-care to people with COPD?

Yes, I essentially have sufficient knowledge

No, I do not have sufficient knowledge

c. Do your work tasks include providing information on strategies for COPD-related self-care to people with COPD?

Yes

No

d. *If your work tasks include* providing information on strategies for COPD-related self-care to people with COPD, have you encountered any difficulties in providing this intervention/activity?

Yes No

If yes, please describe _____

5. Physical activity/exercise training

a. Offering consultative discussions about physical activity/exercise training to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

Disagree Agree to some extent Largely agree Agree completely

b. Do you feel like you have sufficient knowledge to provide consultative discussions about physical activity/exercise training to people with COPD?

Yes, I essentially have sufficient knowledge No, I do not have sufficient knowledge

c. Do your work tasks include providing consultative discussions about physical activity/exercise training to people with COPD?

Yes No

d. *If your work tasks include* providing consultative discussions about physical activity/exercise training to people with COPD, have you encountered any difficulties in providing this intervention/activity?

Yes No

If yes, please describe _____

6. Physical activity on prescription

a. Offering physical activity on prescription to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Disagree	Agree to some extent	Largely agree	Agree completely

b. Do you feel like you have sufficient knowledge to offer physical activity on prescription to people with COPD?

<input type="checkbox"/> Yes, I essentially have sufficient knowledge	<input type="checkbox"/> No, I do not have sufficient knowledge
---	---

c. Do your work tasks include providing physical activity on prescription to people with COPD?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

d. *If your work tasks include* providing physical activity on prescription to people with COPD, have you encountered any difficulties in providing this intervention/activity?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

If yes, please describe _____

7. Breathing techniques

a. Offering instruction and training in breathing techniques to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Disagree	Agree to some extent	Largely agree	Agree completely

b. Do you feel like you have sufficient knowledge to provide instruction and training in breathing techniques to people with COPD?

<input type="checkbox"/> Yes, I essentially have sufficient knowledge	<input type="checkbox"/> No, I do not have sufficient knowledge
---	---

c. Do your work tasks include providing instruction and training in breathing techniques to people with COPD?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

d. *If your work tasks include* providing instruction and training in breathing techniques to people with COPD, have you encountered any difficulties in providing this intervention/activity?

Yes No

If yes, please describe _____

8. Nutrition and energy needs

a. Offering consultative discussions about nutrition and energy needs to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Disagree	Agree to some extent	Largely agree	Agree completely

b. Do you feel like you have sufficient knowledge to provide consultative discussions about nutrition and energy needs to people with COPD?

Yes, I essentially have sufficient knowledge No, I do not have sufficient knowledge

c. Do your work tasks include providing consultative discussions about nutrition and energy needs to people with COPD?

Yes No

d. *If your work tasks include* providing consultative discussions about nutrition and energy needs to people with COPD, have you encountered any difficulties in providing this intervention/activity?

Yes No

If yes, please describe _____

9. Energy conservation techniques and assistive devices

a. Providing information on energy conservation techniques and assistive devices to people with COPD is an important task in primary care (please tick the box that best describes your opinion).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Disagree	Agree to some extent	Largely agree	Agree completely

b. Do you feel like you have sufficient knowledge to provide information on energy conservation techniques and assistive devices to people with COPD?

<input type="checkbox"/> Yes, I essentially have sufficient knowledge	<input type="checkbox"/> No, I do not have sufficient knowledge
---	---

c. Do your work tasks include providing information on energy conservation techniques and assistive devices to people with COPD?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

d. *If your work tasks include* providing information on energy conservation techniques and assistive devices to people with COPD, have you encountered any difficulties in providing this intervention/activity?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

If yes, please describe _____

10. Other interventions/activities

a. Are there any interventions/activities not mentioned in this survey that you would like to offer people with COPD?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
------------------------------	-----------------------------

If yes, please describe _____

b. If you entered any interventions/activities at question 10a, have you experienced any difficulties in providing these interventions/activities to people with COPD?

<input type="checkbox"/> Yes	<input type="checkbox"/> No
