RE: Your submission to GigaScience - GIGA-D-16-00073

Dear editor Hans,

Thanks for your letter. We made revisions based on your suggestions.

We added the detailed table (Table 3: Gene annotation statistics of the genome of *P. hyalocranius*.) to demonstrate the annotation result in each step containing the denovo annotation (AUGUSTUS and GENSCAN), homolog annotation and Glean process.

Best regards,
Qiong Shi, PhD, Professor
