

Supplementary information, Figure S8 PPAR δ regulates Tbx20 expression at the transcriptional level. **(A)** Scheme of tested Tbx20 promoter reporter constructs. **(B)** PPAR δ -induced transcriptional activation of a series of Tbx20 promoter reporter constructs in the pGL3-Basic plasmid for luciferase reporter assays. The Tbx20 promoter luciferase activities were normalized to renilla luciferase activities. ****** $P < 0.01$. $n = 3$.
