

Supplemental Table 1. Cross-classification between menstrual cycle characteristics and self-reported PCOS<sup>1</sup>

	Menstrual cycle irregularity	Cycle length > 35 days	Self-reported PCOS
Menstrual cycle irregularity	224		
Cycle length > 35 days	6	39	
Self-reported PCOS	19	1	78

<sup>1</sup>Phase 1 not included in this table because the self-reported PCOS question was not directly asked (only asked via infertility diagnoses).

Supplemental Table 2. Diagnostic criteria for PCOS

	NIH Definition 1990	Rotterdam Definition 2004	AES Definition 2008
Hyperandrogenism	Required	2 of 3 required	Required
Ovulatory dysfunction (oligo- or amenorrhea)	Required	2 of 3 required	Either ovulatory dysfunction or PCOS morphology required
PCOS Morphology	Not required	2 of 3 required	Either ovulatory dysfunction or PCOS morphology required
