

Supplemental Figure 1. Total Ages and Stages Questionnaire scores at 2 years corrected age by number of domains below threshold according to established reference (Squire, 2009).

Abbreviation: ASQ, Ages and Stages Questionnaire.

The marker inside the box indicates the mean value and the line the median value of the total ASQ score. The left and right edges of the box represent the interquartile range of the total median ASQ score. The whiskers, extended from each box, indicate the entire range of values, including outliers.
