

Supplement S8: Representative time-lapse video images of mitotic progression GFP-Tubulin tagged cells.

Movie 8A (control)

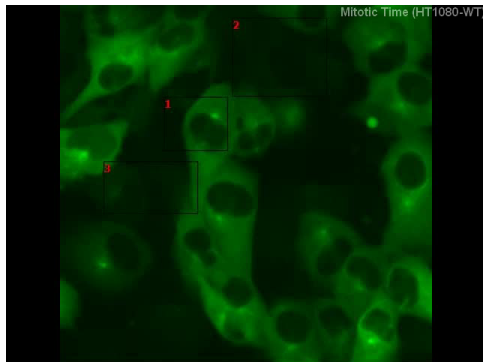

Movie 8B (BCCIP-KD)

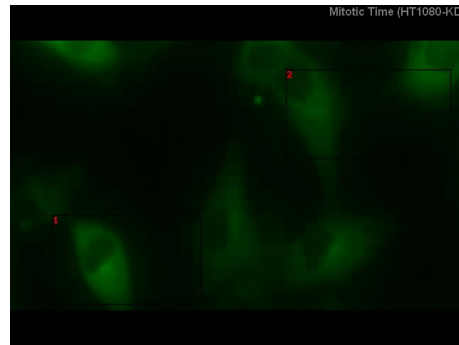

M8: Duration required to complete mitosis after overnight nocodazole treatment and cold shock in wild type HT1080 cells (Supplement Movie M8A) and HT1080 BCCIP knockdown cells (Supplement Movie M8B)

Movie 9A (control)

Movie 9B (BCCIP-KD)

M9: Duration from the onset of mitosis to the completion of cell division (presence of a mid-body) in wild type (Supplement Movie M9A) and BCCIP knockdown HT1080 cells (Supplement Movie M9B).
