Supplementary Fig. 1: iNOS and NOX2 immunostaining specificity test

- A) Representative image of iNOS immunostaining on heart (positive control).
- B) Representative image of iNOS immunostaining on heart without primary antibody anti-iNOS (technical negative control).

C) Representative image of NOX2 immunostaining on spleen (positive control).

D) Representative image of NOX2 immunostaining on spleen without primary antibody anti-NOX2 (technical negative control).
