TNF-α	5.98 (4.61-21.49)	9.54 (6.35-14.94)	0.572

Median and interquartile range values are represented for each group. CSF: cerebrospinal fluid; IFN – interferon; IL – interleukin; G-CSF – granulocyte-colony stimulating factor; MIP – macrophage inflammatory protein; TNF – tumour necrosis factor; ND – not detected; \*p ≤ 0.05 considered significant
