

Ultrasonography of Parotid and submandibular glands in primary Sjögren Syndrome

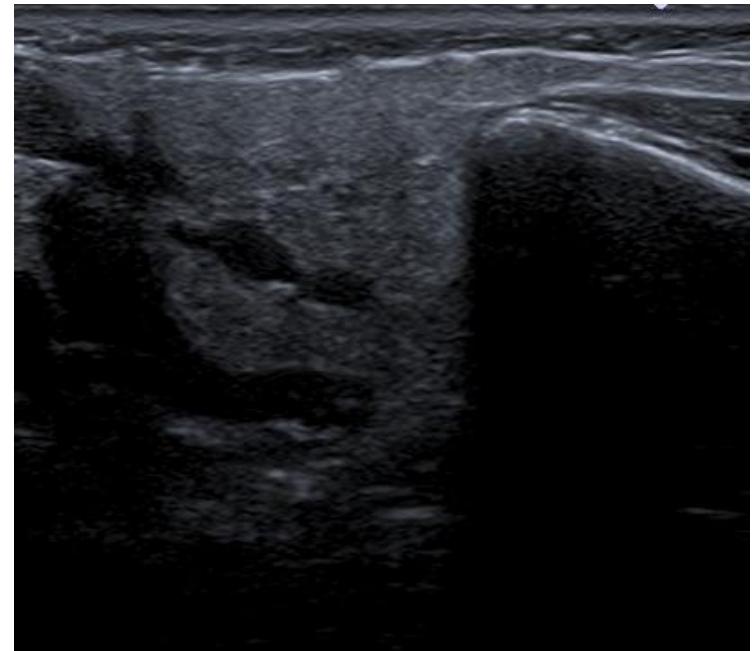

A novel reference atlas for B-mode
evaluation of parotid and submandibular glands

Sandrine Jousse-Joulin et. al

Included Salivary glands

- Parotid glands
 - 7 items:
 - Echogenicity (normal or abnormal)
 - Homogeneity and its related items:
 1. Hyperechoic bands:
 - Presence of hyperechoic bands <20%
 - hyperechoic bands between 20%-50%
 - hyperechoic bands >50%
 2. Hypo/anechoic area:
 - Isolated<25%
 - Localized 25-50%
 - Scattered
 - Diffuse>50%
 - Lymph nodes
 - Calcifications (present or not)
 - Posterior border (visible or not)
 - Submandibular glands

PAROTID GLAND PROCEDURE

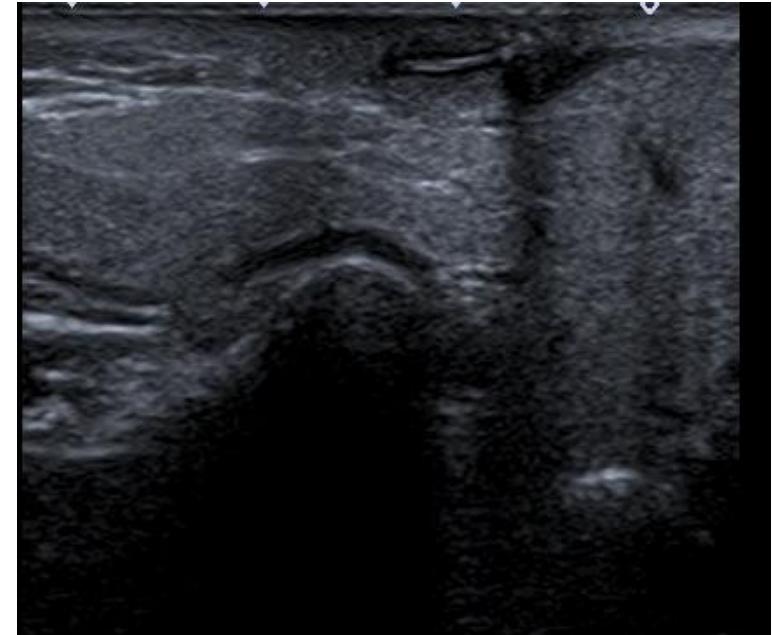

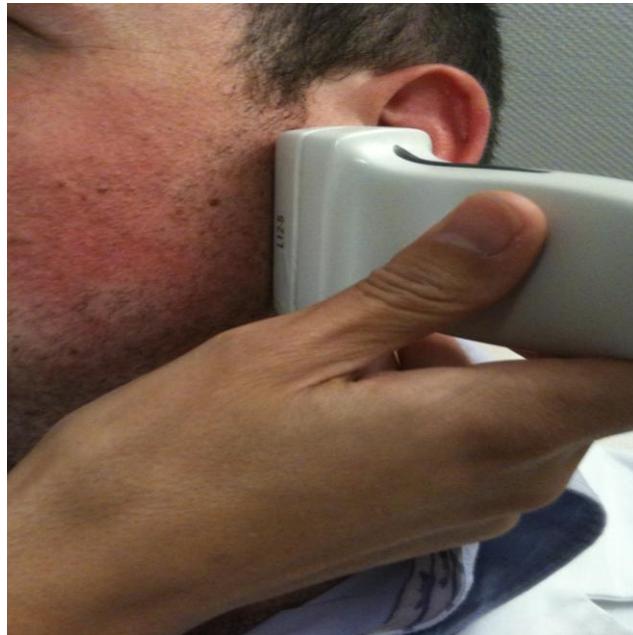

Parotid gland in axial scan

Jousse-Joulin al.

Ultrasonography scoring
reference atlas ver 1.0

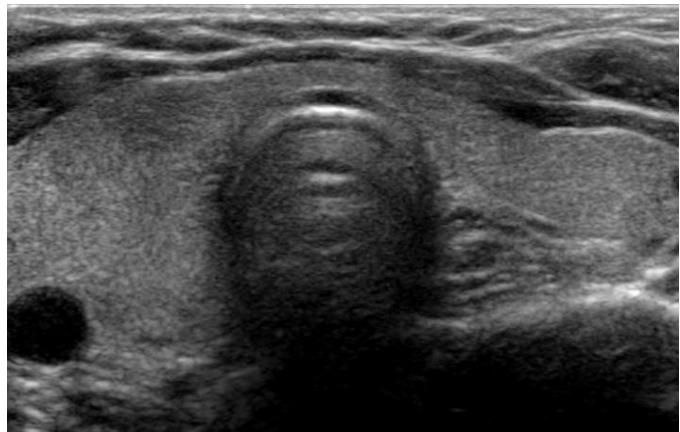

PAROTID GLAND PROCEDURE

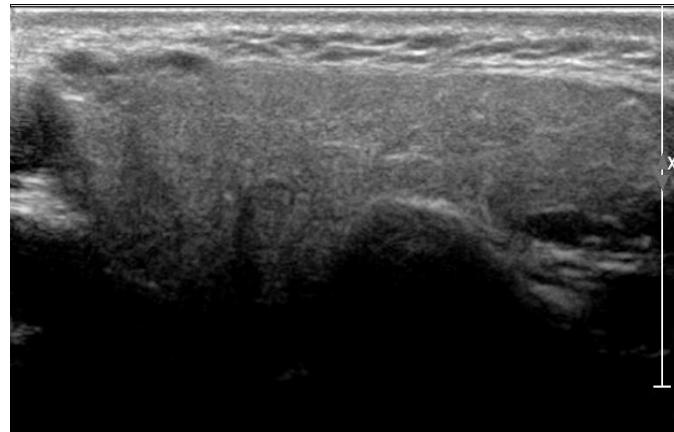

Parotid gland in longitudinal scan

Jousse-Joulin al.

Ultrasonography scoring
reference atlas ver 1.0

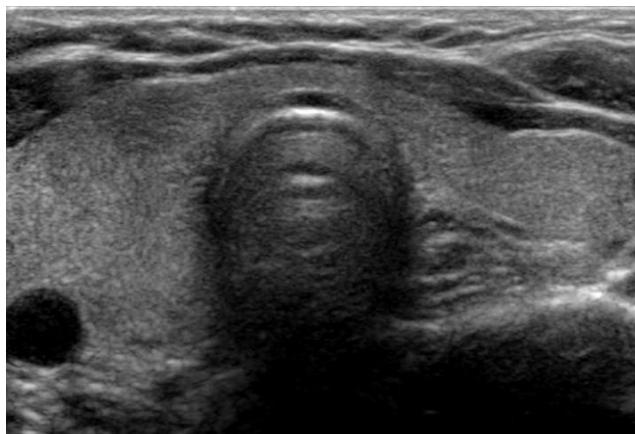

Thyroid parenchyma

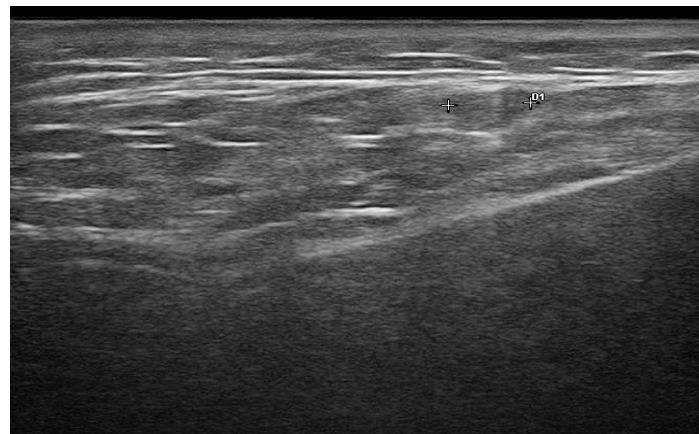

Parotid parenchyma

Normal echogenicity

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

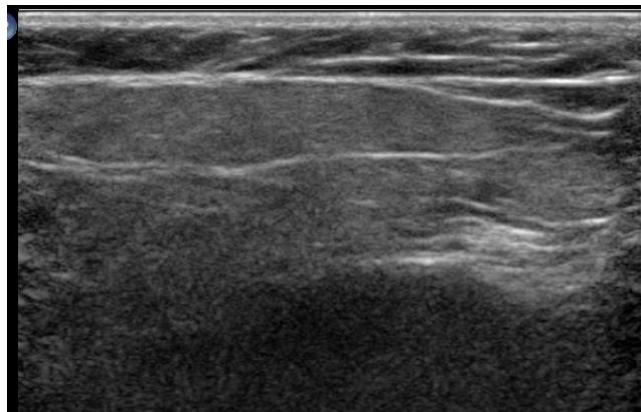

Thyroid parenchyma

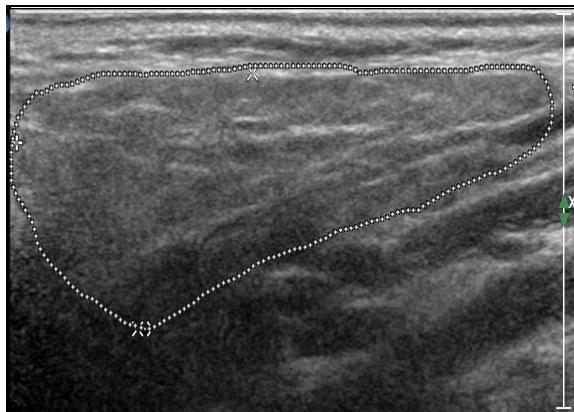

Parotid parenchyma

Abnormal echogenicity

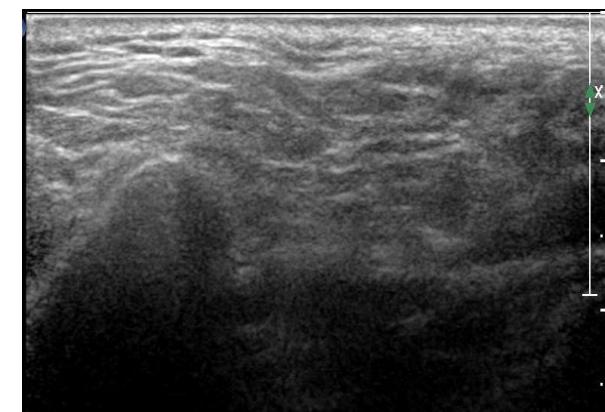

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

1

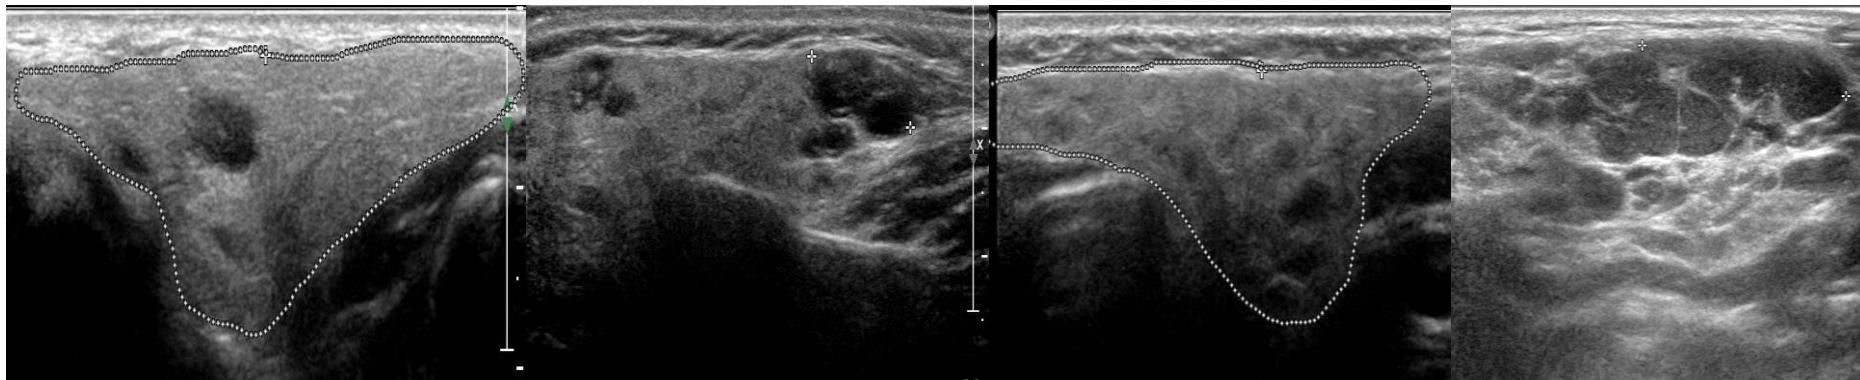

2

3

Hyperechoic bands in parotid gland parenchyma:

1. Less than 20% of the surface
2. Between 20-50% of the surface
3. More than 50% of the surface

isolated

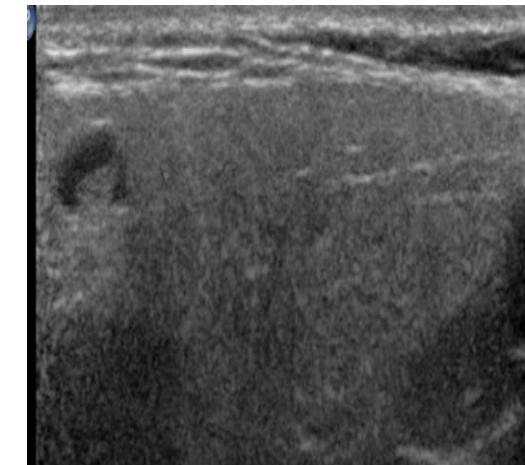

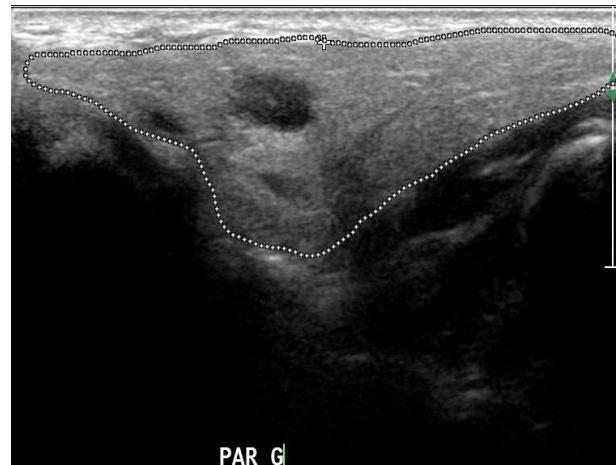

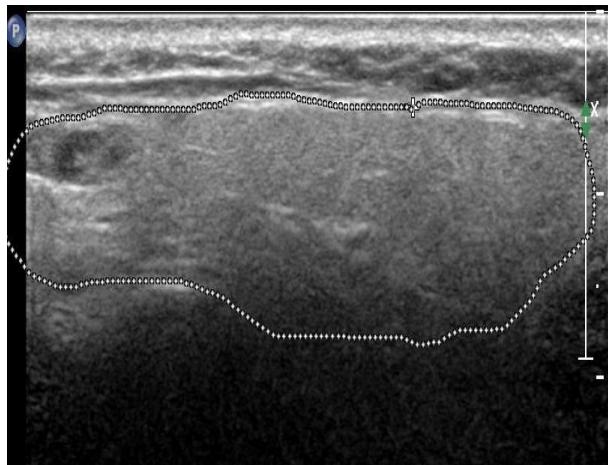

localized

scattered

diffuse

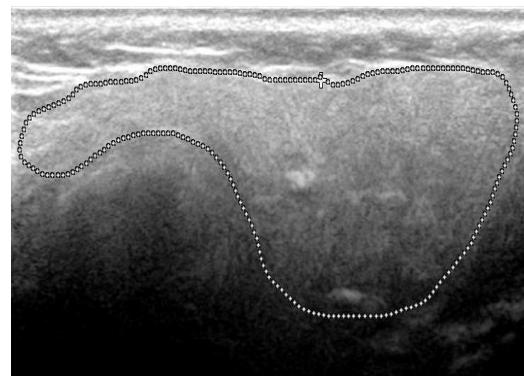

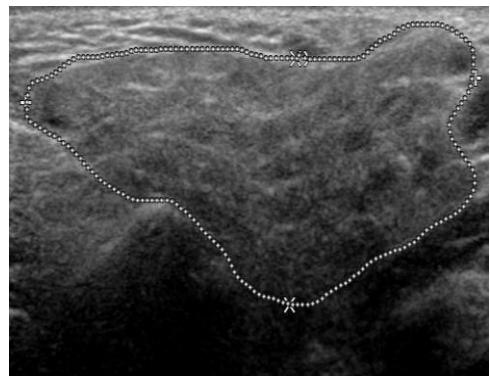

Hypo/Anechoic areas diffuse in parotid parenchyma

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

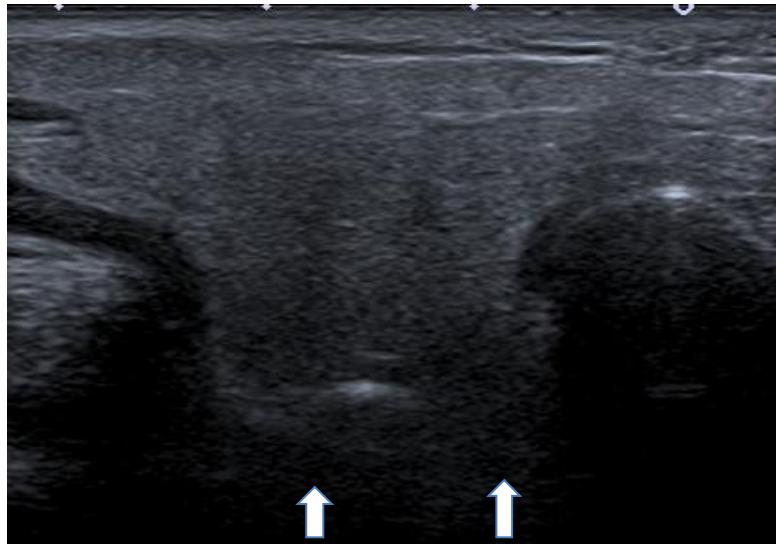

Normal lymph nodes in parotid gland

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

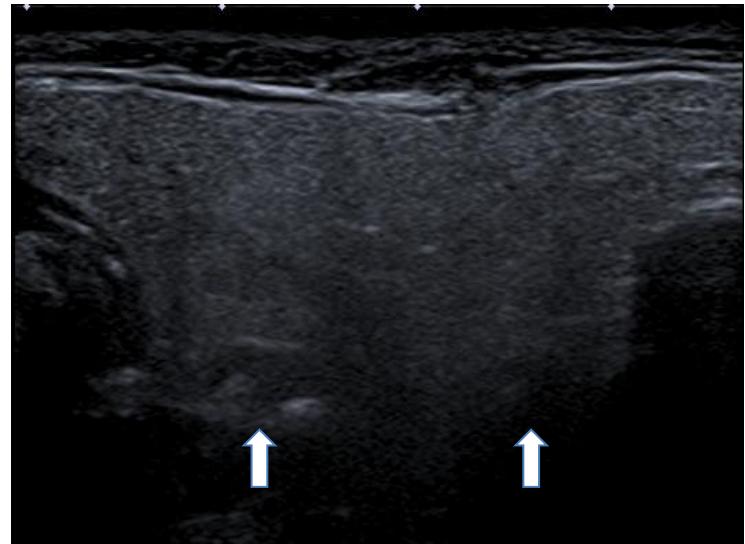

Calcifications in parotid gland

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

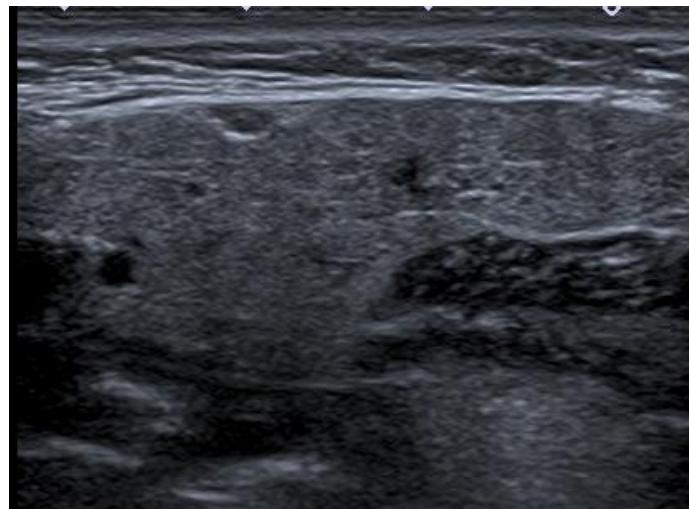

Axial scan

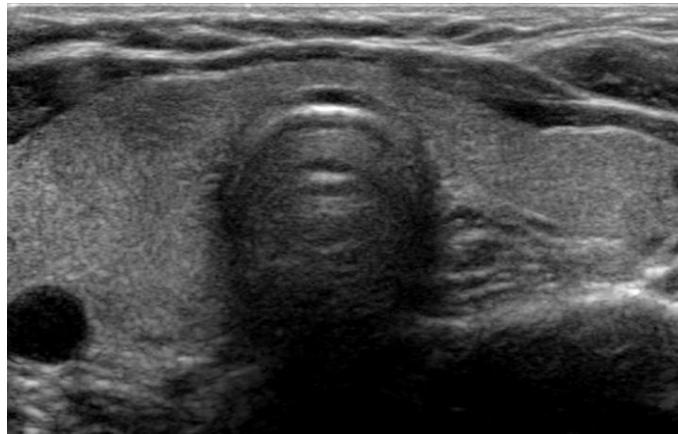

Longitudinal scan

Visible Posterior border in parotid gland

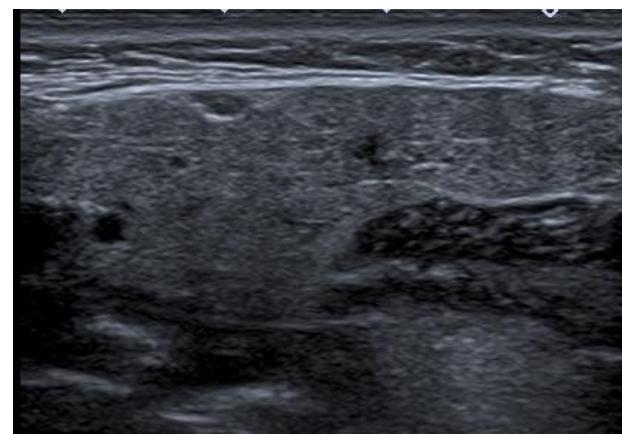

SUBMANDIBULAR GLAND PROCEDURE

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

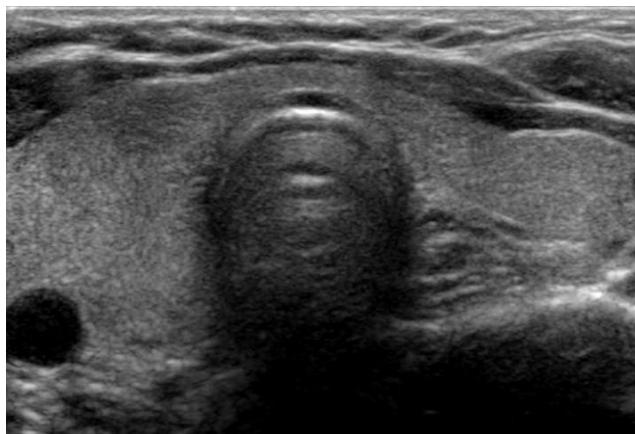

Thyroid parenchyma

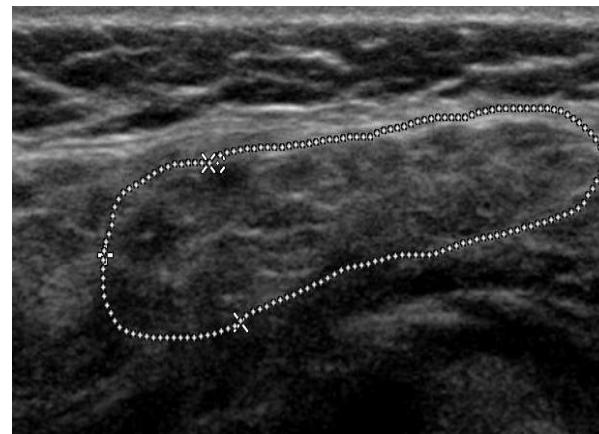

Submandibular parenchyma

Normal echogenicity

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

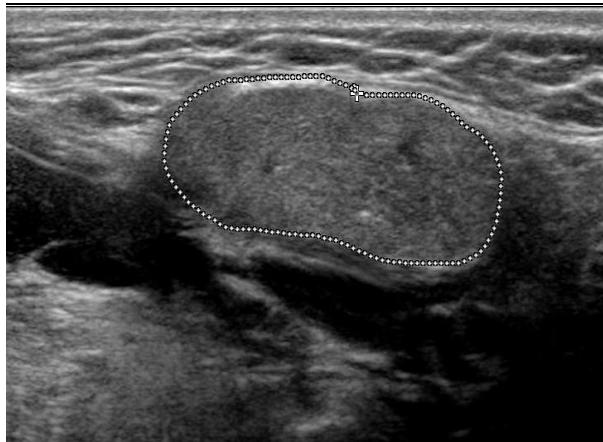

Thyroid parenchyma

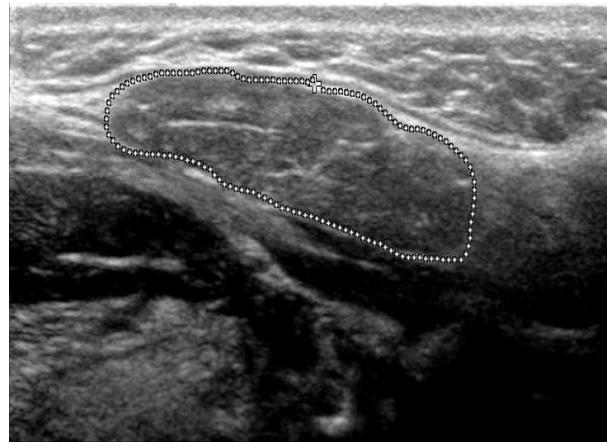

Submandibular parenchyma

Abnormal echogenicity

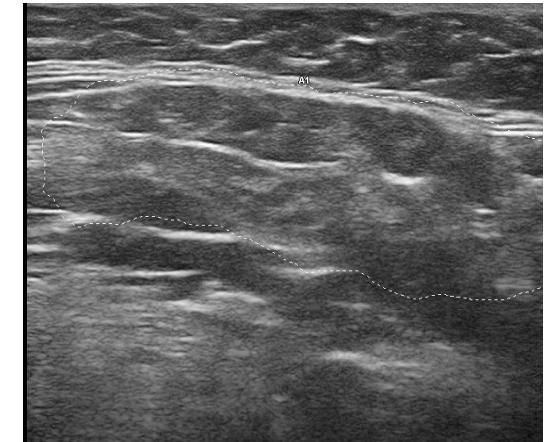

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

1

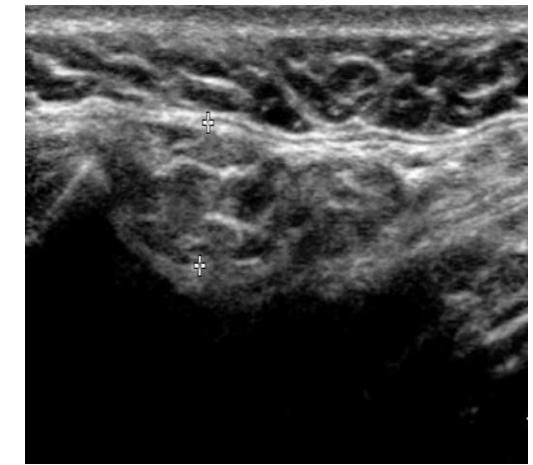

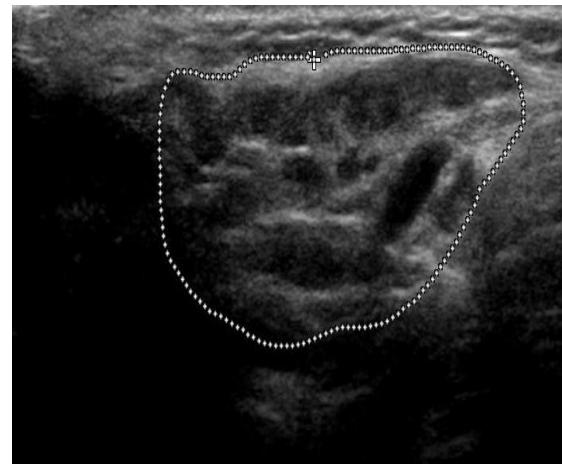

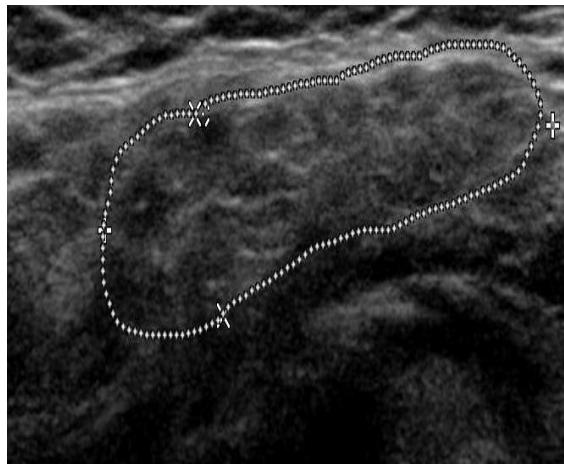

2

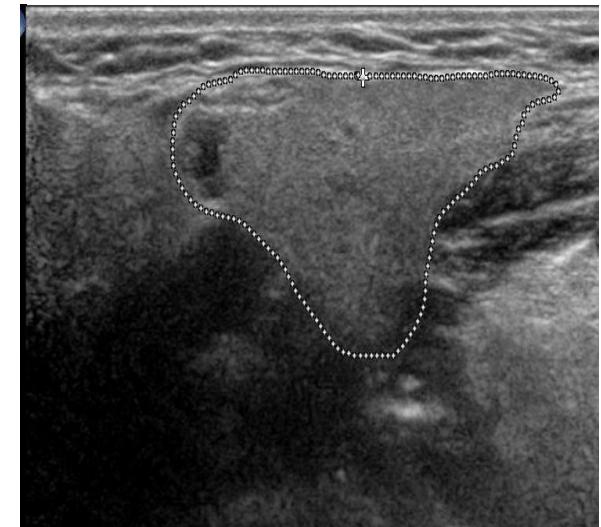

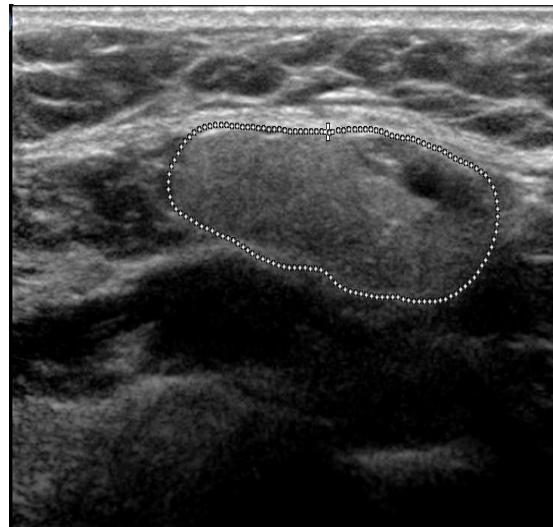

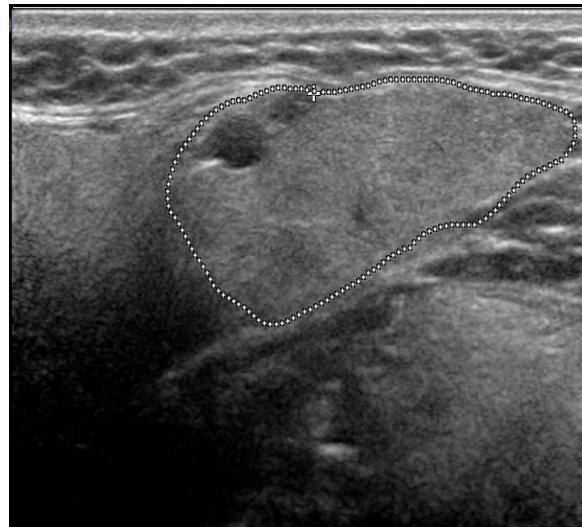

3

Hyperechoic bands in submandibular gland parenchyma:

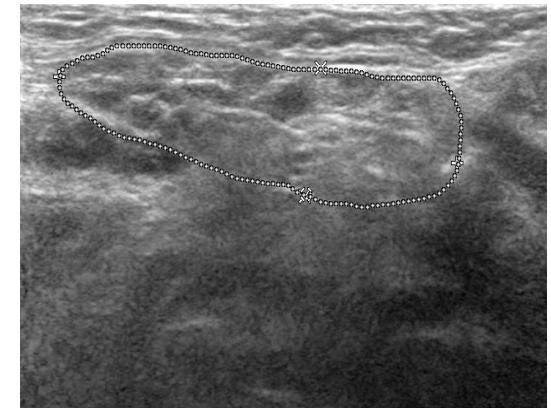

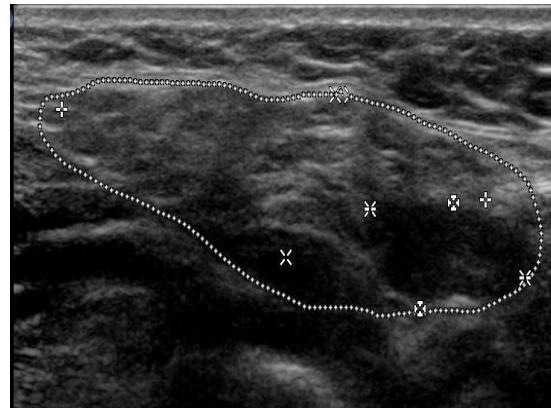

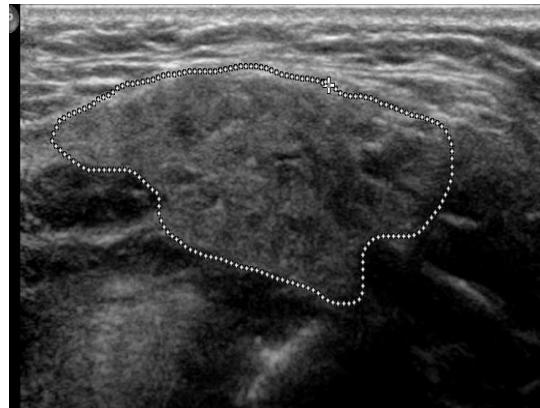

1. Less than 20% of the surface
2. Between 25-50% of the surface
3. More than 50% of the surface

Hypo/Anechoic areas diffuse in submandibular parenchyma

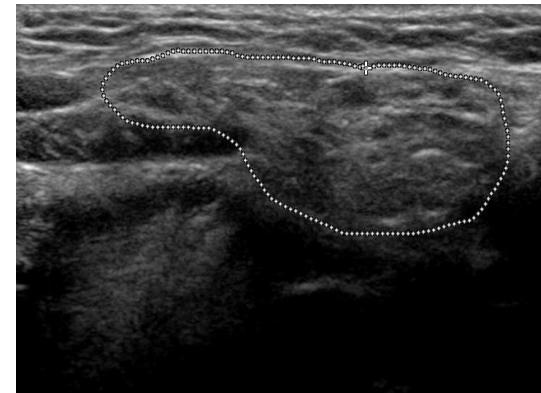

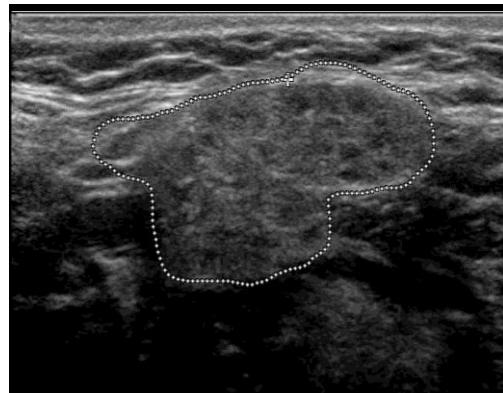

Hypo/Anechoic areas isolated in submandibular parenchyma

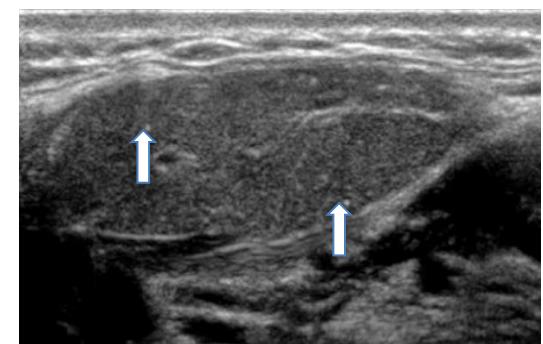

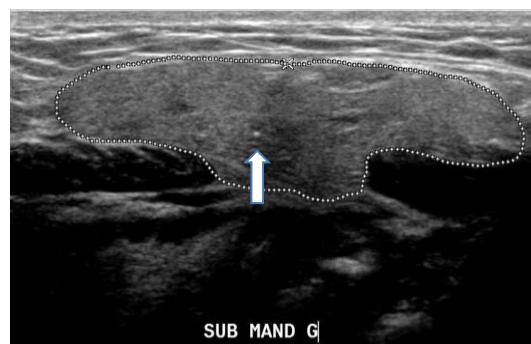

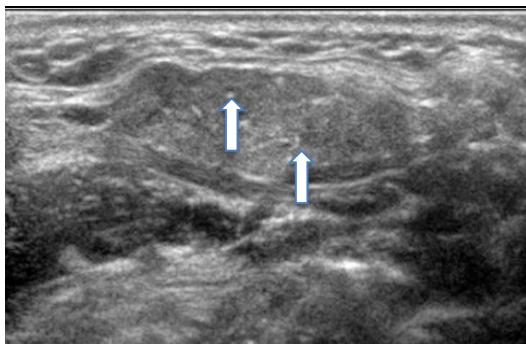

Hypo/Anechoic areas localized in submandibular parenchyma

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

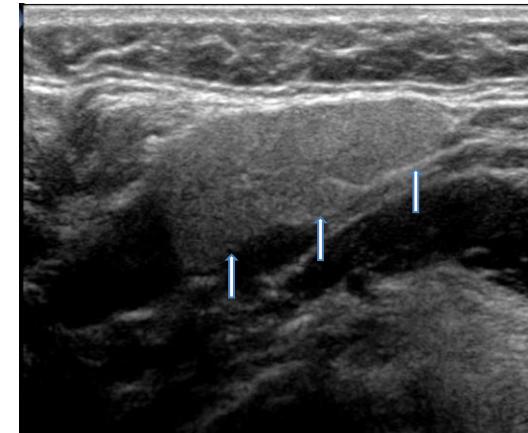

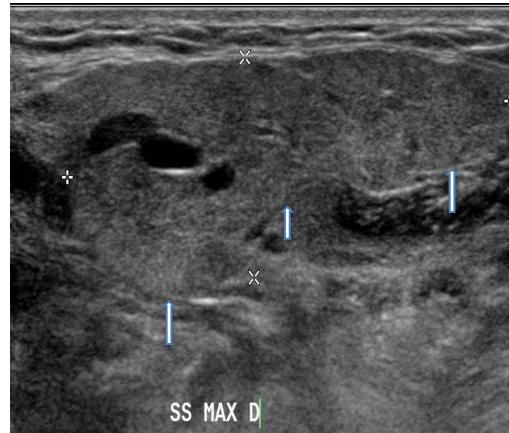

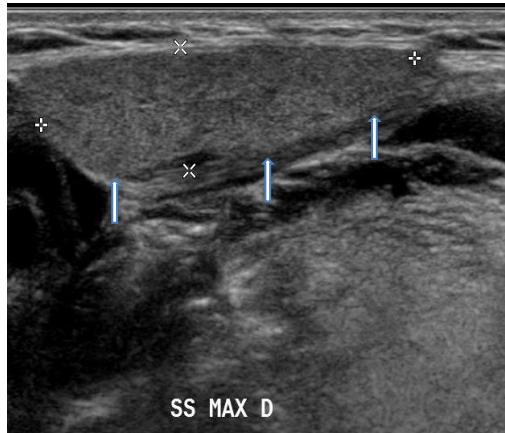

Hypo/Anechoic areas scattered in submandibular gland

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

Calcifications in submandibular gland

Jousse-Joulin al.
Ultrasonography scoring
reference atlas ver 1.0

Visible posterior border in submandibular gland
