

Study of *Cryptosporidium parvum* and *Cyclospora cayetanensis* infections among people living in Thapathali slum area, Kathmandu, Nepal

Study ID: [__][__][__]

Date Today: [D][D]-[M][M]-[Y][Y]

Name of the respondent: [.....]

Mobile no of respondent: [.....]

DEMOGRAPHIC DETAILS

1. Name: [.....]

2. Sex: M [__] / F [__]

3. Age in Years: [__][__]

SOCIOECONOMIC STATUS

4. Occupation:

1=Students [__] 2=Farmer [__] 3=Factory worker [__]
4= Others [__]

5. Education:

Illiterate [__]
Literate [__]

6. Number of People in the household: [__]

7. Water source:

1=Tap [__] 2= Tanker [__] 3= Bottle [__]

LAB REPORT

8. Protozoal parasites:

Giardia lamblia [__]

Entamoeba coli [__]

Entamoeba histolytica [__]

Cyclospora cayetanensis [__]

Cryptosporidium parvum [__]

Sarcosystis hominis [__]

Isospora beili [__]

Edolimax nana [__]

Blastocystis hominis [__]

9. Helminthic parasites:

Ascaris lumbricoides [__]

Hymenolepsis nana [__]

Trichuris trichiura [__]

Hymenolepis diminuta [__]

Taenia spp [__]

Hookworm [__]
