

## Speech Spatial Qualities -B

### Advice about answering the questions

The following questions inquire about aspects of your ability and experience hearing and listening in different situations. You answered these questions previously, before you started wearing your hearing aid (or aids, if you use two hearing aids).

We would like you to answer the same questions, but comparing your ability and experience now, using your hearing aid/s, with your ability and experience before getting the aid/s.

**For each question, put a mark, such as a cross (x), anywhere on the scale that runs from -5 through 0 to +5, shown against each question .**

- If you are doing better now, with the hearing aid/s, in the situation described in a particular question, then put the mark somewhere to the right of the 0 point on the scale.
- If you are doing worse, then put the mark somewhere to the left of the 0.
- If things are no different, put the mark at around the 0 point.
- If things are *much* worse mark the scale at around -5; if things are *much* better mark it around +5.

**We expect that all the questions are relevant to your everyday experience, but if a question describes a situation that does not apply to you, put a cross in the “not applicable” box.** Please also write a note next to that question explaining why it does not apply in your case.

Please answer the following questions, then go on to the questions about your hearing

**Your name :**

**Today’s date :**

**Your age:**

*Please check one of these options:*

I use **one** hearing aid (**left ear**)

I use **one** hearing aid (**right ear**)

I use **two** hearing aids (**both ears**)

*If you have two aids and have used them for different lengths of time, please check the “**both ears**” box.*

How long have you been using a hearing aid or aids?

\_\_\_\_\_ years

\_\_\_\_\_ months

or

\_\_\_\_\_ weeks
