

## **DNA-damage related genes and clinical outcome in hormone receptor positive breast cancer**

### **SUPPLEMENTARY TABLES**

**Supplementary Table S1: Association of the identified genes with RFS in the different breast cancer subtypes using KM plotter**

See Supplementary File 1

**Supplementary Table S2: Association of the identified genes with OS in the different breast cancer subtypes using KM plotter**

See Supplementary File 2

**Supplementary Table S3: Biological function for the identified genes**

See Supplementary File 3
