

Leptin/OB-R pathway promotes IL-4 secretion from B lymphocytes and induces salivary gland epithelial cell apoptosis in Sjögren's syndrome

SUPPLEMENTARY MATERIALS

Supplementary Figure 1: Flow cytometric analysis of primary B lymphocytes stained with anti-CD19 PE antibody to assess purity.

Supplementary Figure 2: Flow cytometric analysis of primary B lymphocytes stained with specific antibodies to assess the intracellular expression of cytokines (IL-2, IL-4, IL-6, IL-10, and IFN- γ).
