

Systematic literature review and clinical validation of circulating microRNAs as diagnostic biomarkers for colorectal cancer

SUPPLEMENTARY MATERIALS

Supplementary Table 1: Characteristics of 26 CRC-related circulating miRNAs in reported studies.

See Supplementary File 1

Supplementary Table 2: Correlations between the levels of dysregulated miRNAs and the clinicopathological characteristics of colorectal cancer patients.

See Supplementary File 2

Supplementary Table 3: Sequences of the primers used for miRNAs in the study.

See Supplementary File 3
