

Selyunin et al., <https://doi.org/10.1083/jcb.201704015>

Table S1 is a separate Excel file showing data from the STx1 primary screen.

Table S2 is a separate Excel file showing data from the STx2 primary screen.

Table S3 is a separate Excel file showing a list of primary screen hits that were specific for STx1 (STx1-unique hits), specific for STx2 (STx2-unique hits), or common for both toxins.

Table S4 is a separate Excel file showing a list of primary screen hits predicted to localize to endosomes/Golgi.

Table S5 is a separate Excel file showing secondary screen data.
