

**OMTN, Volume 9**

**Supplemental Information**

**Rational Design of Short Locked Nucleic Acid-  
Modified 2'-O-Methyl Antisense Oligonucleotides  
for Efficient Exon-Skipping In Vitro**

**Bao T. Le, Abbie M. Adams, Susan Fletcher, Stephen D. Wilton, and Rakesh N. Veedu**

Supplemental data

**Figure S1.** RT-PCR result of *SMN1* transcript showed no off-target effect when treated with AO8. UT: untreated; -ve: negative control.
