

Movie M1: FXII-CTI complex and key interactions

CTI is represented in blue and FXII in grey. M1 is available as a separate movie file, supplementary-movie1, which is playable using Quicktime.

Movie M2: Pose of the central inhibition loop of CTI docked into Factor XII.

FXII is shown in surface representation and the CTI loop as ribbon. M2 is available as a separate movie file, supplementary-movie2, which is playable using Quicktime.
