SCOREs = Gain-Loss, L=Left, R=Right, PFC=Prefrontal Cortex, LPFC=Lateral Prefrontal Cortex, ERP=Event-Related Potential

**Supplemental Table S3.** Pearson Correlation Coefficients Between Win and Loss Response (fMRI) for Even/Odd Split-Halves within Reward ROIs

| Region             | X   | Y  | Z  | Cluster Size<br>mm | Even Trials | Odd Trials |
|--------------------|-----|----|----|--------------------|-------------|------------|
| L Ventral Striatum | -13 | 7  | -8 | 3582               | 0.40        | 0.55       |
| R Ventral Striatum | 13  | 7  | -8 | 2191               | 0.36        | 0.49       |
| Medial             | 6   | 63 | 3  | 781                | 0.57        | 0.53       |
| L LPFC             | -43 | 54 | 3  | 3887               | 0.58        | 0.55       |
| R LPFC             | 29  | 58 | -5 | 1277               | 0.62        | 0.63       |

L=Left, R=Right, PFC=Prefrontal Cortex, LPFC=Lateral Prefrontal Cortex

**Supplemental Table S4.** Intraclass Correlation Coefficients for fMRI and EEG Measures

| Region             | Gain | Loss | SCOREs | SCOREr |
|--------------------|------|------|--------|--------|
| L Ventral Striatum | 0.78 | 0.73 | 0.34   | 0.56   |
| R Ventral Striatum | 0.75 | 0.70 | 0.32   | 0.54   |
| Medial PFC         | 0.69 | 0.66 | 0.02   | 0.34   |
| L LPFC             | 0.79 | 0.71 | 0.20   | 0.49   |
| R LPFC             | 0.80 | 0.74 | 0.04   | 0.36   |
| ERP                | 0.86 | 0.86 | 0.37   | 0.49   |

Intraclass correlation coefficients calculated in SPSS using a mixed effects model and absolute agreement.

SCOREs = gain-loss, SCOREr = unstandardized residual gain controlling for loss, L=Left, R=Right, PFC=Prefrontal Cortex, LPFC=Lateral Prefrontal Cortex, ERP=Event-Related Potential

**Supplemental Table S5.** Intraclass Correlation Coefficients for the First and Second Half of Trials

|              | Gain     |          | Loss     |          | SCOREs   |          | SCOREr   |          |
|--------------|----------|----------|----------|----------|----------|----------|----------|----------|
|              | 1st Half | 2nd Half |
| L V Striatum | 0.77     | 0.62     | 0.71     | 0.64     | 0.36     | 0.43     | 0.55     | 0.54     |
| R V Striatum | 0.72     | 0.59     | 0.64     | 0.66     | 0.27     | 0.42     | 0.50     | 0.52     |
| M PFC        | 0.73     | 0.50     | 0.71     | 0.59     | 0.44     | 0.13     | 0.55     | 0.36     |
| L PFC        | 0.81     | 0.58     | 0.70     | 0.63     | 0.32     | 0.26     | 0.55     | 0.45     |
| R PFC        | 0.82     | 0.46     | 0.74     | 0.65     | 0.38     | 0.13     | 0.58     | 0.24     |
| ERP          | 0.79     | 0.75     | 0.75     | 0.77     | 0.21     | 0.39     | 0.45     | 0.51     |

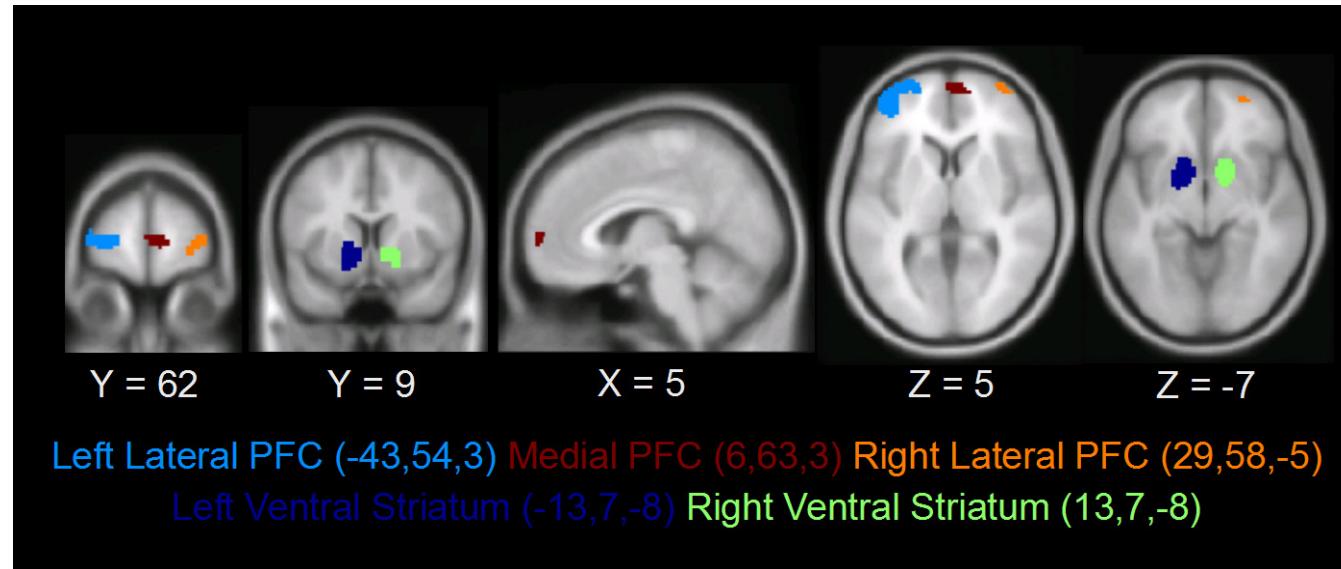

Intraclass correlation coefficients calculated in SPSS using a mixed effects model and absolute agreement.

SCOREs = gain-loss, SCOREr = unstandardized residual gain controlling for loss, L=Left, R=Right, PFC=Prefrontal Cortex, LPFC=Lateral Prefrontal Cortex, ERP=Event-Related Potential.

**Supplemental Table S6.** Test Statistics for Age Interaction Terms from Age Moderation of Split-Half Relationships

|      | Gain     |       |          |       | Loss     |       |          |       | SCOREs   |       |          |       | SCOREr   |       |          |       |
