

Supplementary Figure 3

Supplementary Figure 3. SHP-1 is dispensable for T and iNKT cell development. (A) Representative FACS plots show thymic T cell development in SHP-1^{fl/+}-CD4Cre (WT) and SHP-1^{fl/fl}-CD4Cre (SHP-1^{-/-}) mice. (B) Representative FACS plots show hepatic iNKT cells in WT and SHP-1^{-/-} mice. Data are representative of at least two independent experiments, n = 9 Het and n=8 KO mice.
