

Description of Supplementary Files

File name: Supplementary Movie 1

Description: Animated daily municipal alert probabilities in Spain, based on 2014-15 Mosquito Alert reliable reports. Grey municipalities not sampled by Mosquito Alert participants during this period. Each frame of the animation shows estimated alert probabilities for a given day between April and November, calculated for the two-week period preceding that day.

File name: Supplementary Movie 2

Description: Animated daily municipal alert probabilities in Catalonia, based on 2014-15 Mosquito Alert reliable reports. Grey municipalities not sampled by Mosquito Alert participants during this period. Each frame of the animation shows estimated alert probabilities for a given day between April and November, calculated for the two-week period preceding that day.
