

S2 Table. Alphabetical list of proteins and phosphopeptides with differential abundance in the *Cyp46a1*^{-/-} brain as compared to the wild type brain. Proteins with several identified phosphopeptides are shown first followed by the proteins with only one identified phosphopeptide. WT, wild type mice; KO, *Cyp46a1*^{-/-} mice; Mo, oxidized methionine. The KO/WT peptide ratios higher than 1 are in bold.
